A measurement(s) of Results – The Morris Murdock Travel Show had over 3,000 attendees and was a great show for PCTC, we always get a great response from the attendees, offering them a close fun place to come and visit for a weekend getaway to a week vacation. We handed out a lot of materials and PCTC Region gave away prizes during the show which helped people come and visit us at our booth. The Utah Travel Expo was a new show PCTC attended this year. There was a great response from attendees and very responsive on finding out so many things they can do without traveling a great distance. We found they didn't want to take a lot of material just one to be able to look up our website or contact information. PCTC and Idaho Fish & Game worked together attending this show and Idaho Fish and Game found it not being as good as a show for them the audience was looking for a different type of vacation not so much for Hunting and Fishing. The AAA Arizona Highways Show was a great success and it was our first time attending this show. There was over 1,250 attendees per day and they spoke to many people interested in Idaho and were excited to come and visit. A great response and our representatives suggested we send more Idaho State Travel Guides and not so many individual brochures as they didn't want to carry around so much stuff. All shows were a great success and we plan to attend them again next year. We are also looking at attending The Boat Show in SLC, Utah next year to entice people to visit our beautiful reservoirs.

We sent 2 representatives to the show and they felt it was very well received and felt they made some great contacts and future working relationships. We followed up with them on additional information they were wanting by mail and by e-mail. Our representatives did a great job representing Southeast Idaho. We ran an ad in Calgary Herald in Alberta Canada and our statistics showed 97 visits this month compared to 47 last year. Our focus in the next coming year is to advertise more internationally.
