FOR IMMEDIATE RELEASE

WOODGRAIN MILLWORK INC., Fruitland, ID acquires GEM FOREST PRODUCTS, Emmett, ID

Fruitland, Idaho – January 21, 2016 - Woodgrain Millwork Inc., a US based manufacturer of mouldings, doors and windows, with manufacturing facilities across the US, announced today that they have purchased the assets of Gem Forest Products including the sawmill located in Emmett, Idaho. As part of the agreement, Woodgrain Millwork will take ownership of the facility, equipment and the inventory of Gem Forest Products.

Beginning February 15, 2016, a group of employees will operate the mill for 2-3 months to process the existing inventory followed by a period of several months of mill renovation prior to a permanent start-up later in 2016.

The purchase of Gem Forest Products strengthens Woodgrain Millwork's company strategy of vertical integration. Woodgrain Millwork will integrate Gem Forest Product's existing facility to supply lumber to its Fruitland manufacturing facility.

Woodgrain Millwork looks forward to deepening its Idaho roots by being a part of the Emmett community and integrating Gem Forest Products into its organization.
