

2018 TRADE OVERVIEW

Trade with NAFTA countries increased 7.35% in 2018 despite the uncertainty caused by NAFTA renegotiations and the creation of the USMCA.

Exports to NAFTA countries account for 28.7% of total Idaho exports. The USMCA has not been ratified by any of the three member countries.

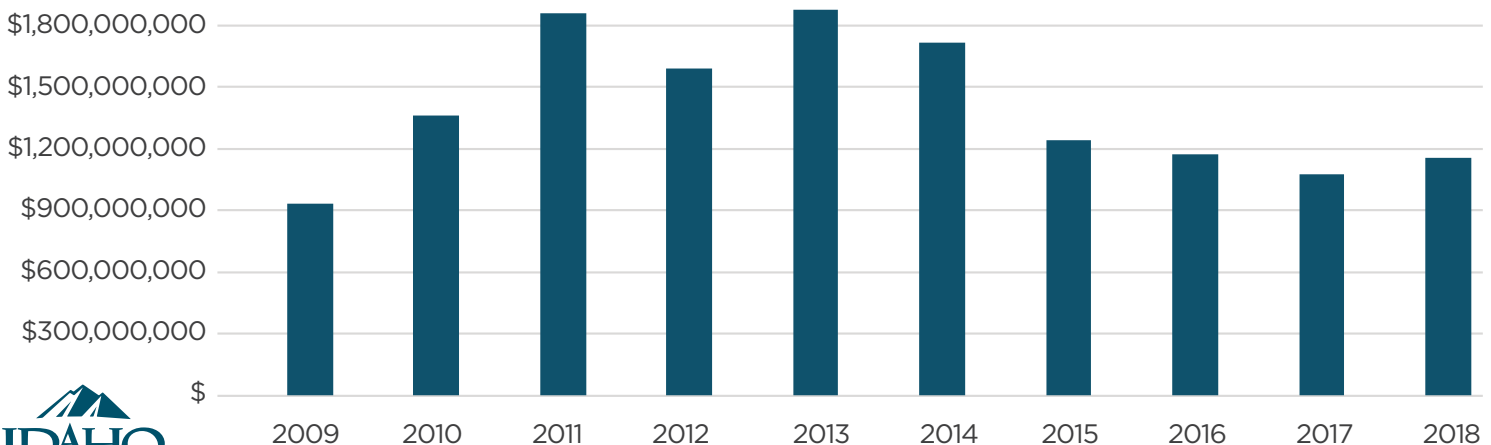

The USMCA provides more favorable access for dairy products to Canada which could benefit Idaho's dairy producers.

Diesel electric locomotive exports grew most significantly in 2018 followed by exports of fertilizer and memory.

Exports totalling < \$100M not displayed include wood, paper, pulp and printing; personal care products; office, home and outdoor; fabricated metal products; apparel; textiles and other.
