Comments from Idahoans

“The difference from our previous Gen3 to the existing Gen5 is worlds apart - We are extremely pleased with the speed, amount of data for the plan and the associated cost... We live on a remote ranch totally off of the public grid and to finally have a truly useful internet connection is a blessing.”
Riggins, Idaho | March 30, 2017

“I really am impressed with the Hughes net wireless WFI. I had been running mifi which has gotten terrible and my 4G LTE became rather frustrating to get pages to load. \Hughes net has made surfing the net fun again. Thank you all so much for getting us mountain folks connected.”
