The local government must be able to provide allowable match in a negotiated amount that represents a material commitment from the local government that is commensurate with the local government’s financial condition. b. The credit applies to qualified investments placed in service during the project period. Qualified investments placed in service during the project period, but in a taxable year that does not qualify, shall not qualify for the small employer investment tax credit, but may qualify for the investment tax credit allowed by Section 63-3029B, Idaho Code. For example, if a project begins after December 31, 2005, but in a fiscal year beginning in 2005, the qualified investments placed in service during that taxable year shall not qualify for the small employer investment tax credit, but may qualify for the investment tax credit allowed by Section 63-3029B, Idaho Code. (3-30-07)

06. Coordination With Investment Tax Credit Allowed by Title 63, Chapter 30, Idaho Code. However, if a taxpayer has qualified investments in a taxable year in which the project period begins or ends, the taxpayer may qualify for both the small employer investment tax credit on property placed in service during the project period in that taxable year and for the investment tax credit allowed by Section 63-3029B, Idaho Code, for property placed in service before or after the project period in that taxable year. Calculations used in computing the number of new employees for the prior taxable year and average for the three (3) prior taxable years shall be made consistent with the computations for the current taxable year. (3-30-07)

c. The number of new employees shall be rounded down to the nearest whole number and must equal or exceed one (1) or no credit is earned. (3-30-07)

05. Computing the Credit Earned. The taxpayer shall identify each new employee who qualifies for the credit and his annual salary for the taxable year. (3-30-07)

a. If during the taxable year the new employee earned more than twenty-four dollars and four cents (\$24.04) per hour worked but less than or equal to an average rate of twenty-eight dollars and eighty-five cents (\$28.85) per hour worked, the credit for such new employee shall be one thousand five hundred dollars (\$1,500). (3-30-07)

b. If during the taxable year the new employee earned more than an average rate of twenty-eight dollars and eighty-five cents (\$28.85) per hour worked but less than or equal to an average rate of thirty-six dollars and six cents (\$36.06) per hour worked, the credit for such new employee shall be two thousand dollars (\$2,000). (3-30-07)

c. If during the taxable year the new employee earned more than an average rate of thirty-six dollars and six cents (\$36.06) per hour worked but less than or equal to an average rate of forty-three dollars and twenty-seven cents (\$43.27) per hour worked, the credit for such new employee shall be two thousand five hundred dollars (\$2,500). The small employer new jobs tax credit claimed during a taxable year may not exceed sixty-two and five-tenths percent (62.5%) of the tax, after allowing all other income tax credits that may be claimed before the small employer new jobs tax credit, regardless of whether this credit results from a carryover earned in prior years, the current year, or both. See Rule 799 of these rules for the priority order for nonrefundable credits. (3-30-07)

b. Unitary Taxpayers. Limitations apply to each taxpayer according to its own tax liability. Each corporation in a unitary group is a separate taxpayer. See Rule 711 of these rules. (3-30-07)

07. Carryovers. The carryover period for the small employer new jobs tax credit is ten (10) years.

08. Coordination With Credit for Qualifying New Employees Allowed by Title 63, Chapter 30, Idaho Code. A taxpayer who has new employees who are eligible for the small employer new jobs tax credit may not claim the credit for qualifying new employees allowed by Section 63-3029F, Idaho Code, with respect to the same employees. However, a taxpayer may claim the credit for qualifying new employees for any new employees who do not meet the requirements for the small employer new jobs tax credit, but who meet the requirements of Sections 63- 3029E and 63-3029F, Idaho Code. (3-30-07)

01. Failure to Meet Tax Incentive Criteria. If a taxpayer fails to meet the small employer tax incentive criteria, the full amount of the small employer investment tax credit, real property improvement tax credit and new jobs tax credit claimed in any taxable year shall be recaptured. (3-30-07)

02. Year Deficiency Occurs. Recapture shall be a deficiency in tax in the taxable year when the disqualification first occurs. For investment in new plant, disqualification occurs when the property is disposed of or otherwise ceases to qualify. For new employees, disqualification occurs when the average number of qualifying employees for a taxable year in the recapture period falls below the average number of qualifying employees for the year in which the credit was earned in Section 63-4405, Idaho Code. (4-2-08)

03. Early Disposition of Investment in New Plant. (3-30-07)

a. If an investment in new plant is disposed of, or otherwise ceases to qualify, prior to the close of the recapture period, the recapture amount shall be computed by multiplying the credit earned by the applicable recapture percentage. (3-30-07)

b. The recapture percentage shall be determined as follows. If the property is disposed of or ceases to qualify within: (3-30-07)

i. One (1) full year or less from the date the property was placed in service, one hundred percent (100%) shall be used; (3-30-07)

ii. Two (2) full years or less, but more than one (1) full year from the date the property was placed in service, eighty percent (80%) shall be used; (3-30-07)

iii. Three (3) full years or less, but more than two (2) full years from the date the property was placed in service, sixty percent (60%) shall be used; (3-30-07)

iv. Four (4) full years or less, but more than three (3) full years from the date the property was placed in service, forty percent (40%) shall be used; (3-30-07)

v. Five (5) full years or less, but more than four (4) full years from the date the property was placed in service, twenty percent (20%) shall be used. (3-30-07)

04. Failure to Maintain Increased Employment. (3-30-07)

a. If the average number of qualifying employees for the taxable year in which the credit was earned in Section 63-4405, Idaho Code, is not maintained for the entire recapture period, the recapture amount shall be computed by multiplying the credit earned by the applicable recapture percentage. (4-2-08)

b. The recapture percentage shall be determined as follows. If the level of employment is maintained: (4-2-08)

i. One (1) full year or less from the date the project period ends, one hundred percent (100%) shall be used; (3-30-07)

ii. Two (2) full years or less, but more than one (1) full year from the date the project period ends, eighty percent (80%) shall be used; (3-30-07)

iii. Three (3) full years or less, but more than two (2) full years from the date the project period ends, sixty percent (60%) shall be used; (3-30-07)

iv. Four (4) full years or less, but more than three (3) full years from the date the project period ends, forty percent (40%) shall be used; (3-30-07)

v. Five (5) full years or less, but more than four (4) full years from the date the project period ends, twenty percent (20%) shall be used. (3-30-07)

c. Recapture shall not be required if a new employee is replaced by another employee who performs the same duties as the previous employee at a wage rate that would have resulted in the same amount of credit being earned. (3-30-07)

05. Reorganizations, Mergers and Liquidations. (3-30-07)

a. If the investment in new plant is disposed of or otherwise ceases to qualify before the close of the recapture period while in the hands of an acquiring taxpayer who succeeded to unused small employer investment tax credit or small employer real property improvement tax credit as provided for in Rule 941.03 of these rules, the acquiring taxpayer shall be responsible for any recapture that would have been applicable to the transferor. (3-30-07)

b. For purposes of computing the recapture when an acquiring taxpayer succeeded to unused small employer investment tax credit and small employer real property improvement tax credit as provided for in Rule 941.03 of these rules, the recapture period shall begin with the date on which the property was placed in service by the transferor taxpayer and shall end with the date of the disposition by, or cessation with respect to, the acquiring taxpayer. (b) Two thousand dollars (\$2,000) for each new employee whose annual salary during the taxable year for which the credit is earned is greater than an average rate of twenty-eight dollars and eighty-five cents (\$28.85) per hour worked but equal to or less than an average rate of thirty-six dollars and six cents (\$36.06) per hour worked;

(c) Two thousand five hundred dollars (\$2,500) for each new employee whose annual salary during the taxable year for which the credit is earned is greater than an average rate of thirty-six dollars and six cents (\$36.06) per hour worked but equal to or less than an average rate of forty-three dollars and twenty-seven cents (\$43.27) per hour worked;

(d) Three thousand dollars (\$3,000) for each new employee whose annual salary during the taxable year for which the credit is earned is greater than an average rate of forty-three dollars and twenty-seven cents (\$43.27) per hour worked.

No credit shall be earned unless such employee shall have performed such duties for the taxpayer for a minimum of nine (9) months during the taxable year for which the credit is claimed.

(4) The credit allowed by this section shall not exceed sixty-two and five-tenths percent (62.5%) of the tax liability of the taxpayer.

(5) Employees transferred from a related taxpayer or acquired from another taxpayer within the prior twelve (12) months shall not be included in the computation of the credit unless the transfer creates a net new job in Idaho.

(2) If, during any taxable year, an investment in new plant is disposed of, or otherwise ceases to qualify with respect to the taxpayer, prior to the close of the recapture period, recapture of the credit allowed by sections [63-4403](#) and [63-4404](#), Idaho Code, shall be determined for such taxable year in the same proportion and subject to the same provisions as an amount of credit required to be recaptured under section [63-3029B](#), Idaho Code.

A claim for rebate under this section must be filed on or before the last day of the third calendar year following the year in which the taxes sought to be rebated were paid or the right to the rebate is lost.

General Instructions

Use Form 83 to calculate the Idaho small employer investment tax credit (SE-ITC) earned or allowed. Each member of a unitary group of corporations that earns or is allowed the credit must complete a separate Form 83.

The SE-ITC is allowed for property that qualifies for the 3% investment tax credit (ITC). If you're claiming the SE-ITC, you can't claim the ITC on the same property.

Qualifying Taxpayers

To qualify for the SE-ITC, you must certify by filing Form 89SE that you'll meet the tax incentive criteria at the project site during the project period. If you haven't filed Form 89SE with the Tax Commission or you've been notified that you don't qualify for the small employer incentives, you can't claim this credit. If you don't qualify for the SE-ITC, you may be eligible to claim the ITC. See Idaho Form 49.

Qualifying Property

If you're a qualifying taxpayer, property that would qualify for the ITC qualifies for the SE-ITC. The property doesn't have to be located at the project site to qualify. However, it does have to be placed in service during the project period.

Property that qualifies for the ITC generally follows the definition of qualified property found in the Internal Revenue Code (IRC), Sections 46 and 48 as in effect before 1986. The property must have a useful life of three years or more and be property you're allowed to depreciate or amortize. Qualifying property includes the following property used in a trade or business:

- Tangible personal property – machinery and equipment
- Other tangible property – property used as an integral part of manufacturing, production, extraction, or furnishing transportation, communications, or utility services, or research facilities and bulk storage facilities used in connection with those businesses
- Elevators and escalators
- Single-purpose agricultural or horticultural structures
- Qualified timber property
- Petroleum storage facilities

- Qualified broadband equipment as approved by the Idaho Public Utilities Commission

Nonqualifying Property

Property that doesn't qualify includes:

- Buildings and their structural components (this property may qualify for the small employer real property improvement tax credit – see Idaho Form 84)
- Property used in lodging facilities that rent 50% or more of their lodging units for periods of 30 days or longer, such as apartment houses or rental homes. (This doesn't apply to hotels and motels that rent more than half their units for periods of less than 30 days.) Nonqualifying property includes property used in the living quarters, lobby furniture, office equipment, and laundry and swimming pool facilities, but excludes certain coin-operated machines.
- The cost of property expensed under IRC Section 179
- Used property not acquired by purchase
- Property that's either nondepreciable or has a useful life of less than three years
- The portion of property used for personal use
- Used property in excess of \$150,000 (total of all properties)
- Horses

Idaho Exceptions to IRC Sections 46 and 48

Idaho law specifically excludes the following property from qualifying for the Idaho ITC:

- Property not used in Idaho
- Vehicles under 8,000 pounds gross vehicle weight

Property Used Both In and Outside of Idaho

If property is used both in and outside Idaho, compute the qualified investment for all property using one of the following methods:

1. Percentage-of-Use Method – Multiply the investment in each asset by a fraction where Idaho use is the numerator and total use is the denominator. Use can be measured by machine hours, mileage, or any other method that accurately reflects the use.
2. Property Factor Numerator Method – Use the amount included in the Idaho property numerator for each asset.

Carryover Periods

SE-ITC that was earned but not used against tax may be carried forward for 14 tax years. For purposes of the carryover period, a short tax year counts as one tax year.

Election to Claim Two-year Property Tax Exemption Instead of ITC

If you placed personal property in service that qualifies for the ITC, you may elect to exempt this property from your property tax. You aren't eligible for the election if your rate of charge or rate of return is regulated or limited by federal or state law. The exemption from the property tax is for two years. After the two years, you must pay any applicable property tax. You can't claim the SE-ITC for any property that you elect to exempt from property tax.

The election is available if you had negative Idaho taxable income in the second tax year before the tax year when the property was placed in service. Negative Idaho taxable income must have been computed without any carryover or carryback of net operating losses.

Make the election on Form 49E and file it with the operator's statement or personal property declaration. Include a copy of the election form with the original income tax returns for the tax years when the property was placed in service.

Recapture

Compute recapture if you sell or otherwise dispose of the property or it no longer qualifies for the SE-ITC before it's been in service for five full years.

Compute recapture if you claimed the SE-ITC in an earlier year and didn't meet the tax incentive criteria you certified to on Idaho Form 89SE.

File Form 83R if you claimed the SE-ITC. File Form 49R if you claimed the ITC or Form 49ER if you claimed the property tax exemption.

Specific Instructions

Instructions are for lines not fully explained on the form.

Credit Available Subject to Limitation

Line 1. Include a list of all property you acquired and placed in service during the tax year that qualifies for the SE-ITC. List each item of property and its location, your basis in the item, whether the item is new or used, and the date placed in service.

Don't include any property placed in service before the date the project period began.

Line 2. Enter the amount of qualified investments for which you claimed the property tax exemption. This exemption is allowed instead of earning the SE-ITC. Include applicable Forms 49E.

Line 5. Enter the amount of the SE-ITC that's being passed through by S corporations, partnerships, trusts, or estates in which you have an interest. This amount is reported on Form ID K-1, Part VII, line 47 or Form ID K-1, Part XI, line 70 (ABE).

Line 6. If you're a member of a unitary group, enter the amount of credit you received from another member of the unitary group.

Corporations claiming the SE-ITC must provide a calculation of the credit earned and used by each member of the combined group. The schedule must clearly identify the shared credit and the computation of any credit carryovers.

Credit Limitations

The SE-ITC is limited to the smaller of \$750,000, 62.5% of the tax liability, or the Idaho income tax after allowing all other tax credits that can be claimed before the SE-ITC.

The following credits must be applied to the tax before the SE-ITC:

1. Credit for income tax paid to other states
2. Credit for contributions to Idaho educational entities
3. Investment tax credit
4. Credit for contributions to Idaho youth and rehabilitation facilities
5. Credit for production equipment using post-consumer waste

- 6. Promoter-sponsored event credit
- 7. Credit for Idaho research activities

Line 13. Enter the credit for income tax paid to other states from Form 39R, Form 39NR, or Form 66. This credit is available only to individuals, trusts, or estates.

Line 26. Enter the smallest amount from lines 23, 24, or 25 on line 26. Enter this amount on Form 44, Part I, line 6 in the Credit Allowed column.

General Instructions

Use Form 84 to calculate the Idaho small employer real property improvement tax credit (SE-RPITC) earned or allowed. Each member of a unitary group of corporations that earns or is allowed the credit must complete a separate Form 84.

Qualifying Taxpayers

To qualify for the SE-RPITC, you must certify by filing Form 89SE that you'll meet the tax incentive criteria at the project site during the project period. If you haven't filed Form 89SE with the Tax Commission or you've been notified that you don't qualify for the small employer incentives, you can't claim this credit.

Qualifying Property

If you're a qualifying taxpayer, the SE-RPITC is allowed on buildings and structural components of buildings that don't qualify for the investment tax credit. The buildings and structural components must be at the project site and placed in service during the project period.

The buildings and structural components must be new property. Used property doesn't qualify for this credit.

Buildings and structural components mean buildings and structural components of buildings as defined in Federal Treasury Regulation Section 1.48-1 for Internal Revenue Code Section 48 repealed by Public Law 101-508.

Building generally means any structure enclosing a space within its walls, and usually covered by a roof, to provide shelter or housing or to provide working office or parking space.

Structural components include parts of a building such as:

- Walls
- Partitions
- Floors
- Ceilings and any permanent coverings to these items such as paneling or tiling
- Windows and doors
- All components of a central air conditioning or heating system
- Plumbing and plumbing fixtures
- Electrical wiring and lighting fixtures
- Chimneys
- Stairs, escalators, and elevators

- Sprinkler systems
- Fire escapes
- Other components relating to the operation or maintenance of a building

Carryover Periods

SE-RPITC that was earned but not used against tax may be carried forward for 14 tax years. For purposes of the carryover period, a short tax year counts as one tax year.

Recapture

Compute recapture if you sell or otherwise dispose of the property or it no longer qualifies for the SE-RPITC before it's been in service for five full years.

In addition, compute recapture if you claimed the SE-RPITC in an earlier year and don't meet the tax incentive criteria that you certified to on Idaho Form 89SE.

If you claimed the SE-RPITC and recapture is now required, file Form 84R.

Line 3. Enter the amount of the SE-RPITC that's being passed through by S corporations, partnerships, trusts, or estates you have an interest in. This amount is from Form ID K-1, Part VII, line 48 or Form ID K-1, Part XI, line 71 (ABE).

General Instructions

Use Form 85 to calculate the Idaho small employer new jobs tax credit (SE-NJTC) earned or allowed. Each member of a unitary group of corporations that earns or is allowed the credit must complete a separate Form 85.

If the project period began during this tax year and didn't cover a period of at least nine months, you don't qualify for the SE-NJTC this year.

Qualifying Taxpayers

To qualify for the SE-NJTC, you must certify by filing Form 89SE that you'll meet the tax incentive criteria at the project site during the project period. If you haven't filed Form 89SE with the Tax Commission or you've been notified that you don't qualify for the small employer incentives, you can't claim this credit.

Qualifying New Employees for the SE-NJTC

To qualify for the credit, the new employee must:

- Qualify as a new employee for purposes of the small employer tax incentive criteria discussed above
- Earn more than \$24.04 per hour worked and
- Have worked a minimum of nine months during the tax year in which the credit is claimed

Calculating the Credit

Use the Employer Quarterly Unemployment Insurance Tax Reports and the Unemployment Insurance Wage Reports filed with the Idaho Department of Labor to compute the number of employees. Only those employees who meet the definition of "new employee" can be included when computing the SE-NJTC. Don't include any employees who don't work primarily at the project site. Keep records to support the computations.

The number of employees employed primarily at the project site during a tax year is the average of the number of employees reported to the Idaho Department of Labor during the 12 months of the tax year. If the project period began during the tax year, the number of employees for the year is the average number actually employed during the months of the project period. You can't earn the credit if the project period didn't cover at least nine months during the first tax year. These employees may qualify for the credit the next year.

The number of qualifying new employees is the increase in the number of qualifying employees for the current tax year over the greater of the following:

- The average number of qualifying employees for the three preceding tax years or

- The average number of qualifying employees for the preceding tax year

The number of qualifying new employees must be rounded down to the nearest whole number.

Credit Rates

To determine the credit allowed, each qualifying new employee must be identified based on their annual salary as shown in the following table.

Carryover Periods

The SE-NJTC earned but not used against tax may be carried forward for 10 tax years. For purposes of the carryover period, a short tax year counts as one tax year.

If the annual salary is greater than...	But equal to or less than an average rate of...	Then the credit earned is...
\$24.04 per hour	\$28.85 per hour	\$1,500
An average rate of \$28.85 per hour	\$36.06 per hour	\$2,000
An average rate of \$36.06 per hour	\$43.27 per hour	\$2,500
An average rate of \$43.27 per hour		\$3,000

Recapture

Compute recapture if you don't maintain the required level of qualified new employees for five full years from the date the project period ends.

Also, compute recapture if you claimed the SE-NJTC in an earlier year and don't meet the tax incentive criteria you certified to on Idaho Form 89SE.

If you claimed the SE-NJTC and recapture is now required, file Form 85R.

Specific Instructions

Instructions are for lines not fully explained on the form.

Credit Available Subject to Limitation

Line 1. Determine the average number of qualifying employees during the tax year by adding the number of qualifying employees reported for each month on your Idaho Employer Quarterly Unemployment Insurance Tax Reports and dividing that amount by the number of months of operation during the tax year. Don't include any employees who weren't employed primarily at the project site.

Line 2. Determine the average number of qualifying employees during the three preceding tax years by dividing the total of the average number of qualifying employees reported on your Idaho Employer

Quarterly Unemployment Insurance Tax Reports for each preceding year by three. If the project period existed less than three tax years, use the number of tax years in operation.

Line 3. Determine the average number of qualifying employees during the preceding tax year by adding the number of qualifying employees reported for each month on your Idaho Employer Quarterly Unemployment Insurance Tax Reports and dividing that amount by the number of months of operation during the preceding tax year. Enter zero if the project period covered less than nine months the preceding tax year.

Line 4. No credit is allowed unless the number on this line equals or exceeds one. If it's more than one, the number is rounded down to the nearest whole number.

Line 5. To compute lines 5a through 5d, identify each individual who's a qualifying new employee and the annual average salary that the individual earned during the tax year. Enter the number of qualifying new employees according to their annual salary earned for the tax year. The amounts listed on lines 5a through 5d can't exceed the number on line 4.

Line 11. Enter the amount of the SE-NJTC that's being passed through by S corporations, partnerships, trusts, or estates in which you have an interest. Report this amount on Form ID K-1, Part VII, line 49 or Form ID K-1, Part XI, line 72 (ABE).

Line 12. If you're a member of a unitary group, enter the amount of credit you received from another member of the unitary group.

Line 13. Enter the carryover from your 2021 Form 85, line 36.

Line 15. If you're an S corporation, partnership, trust, or estate, enter the amount of credit that passed through to shareholders, partners, or beneficiaries.

Line 16. If you're a member of a unitary group, enter the amount of credit you earned that you elect to share with other members of your unitary group. Before you can share your credit, you must use the credit up to the allowable limitation of the tax liability.

Corporations claiming the SE-NJTC must provide a calculation of the credit earned and used by each member of the combined group. The schedule must clearly identify shared credit and the computation of any credit carryovers.

Credit Limitations

The SE-NJTC is limited to the smaller of 62.5% of the tax liability or the Idaho income tax after allowing all other tax credits that may be claimed before the SE-NJTC.

The following credits must be applied to the tax before the SE-NJTC:

1. Credit for income tax paid to other states
2. Credit for contributions to Idaho educational entities
3. Investment tax credit
4. Credit for contributions to Idaho youth and rehabilitation facilities
5. Credit for production equipment using post-consumer waste
6. Promoter-sponsored event credit
7. Credit for Idaho research activities
8. Broadband equipment investment credit

General Instructions

File Form 89SE before claiming any incentives allowed by the Idaho Small Employer Incentive Act. Include a copy of Form 89SE with your Idaho income tax return for each tax year that you're claiming or carrying over the incentives.

Tax Incentive Criteria

To qualify, you must certify that you've met or will meet all of the following tax incentive criteria at the project site during the project period:

- Invest at least \$500,000 in new plant and building facilities
- Increase employment at the project site by at least 10 new employees who each earn at least \$19.23 per hour worked
- If your new employment increased by more than the 10 new employees, these additional employees must earn an average of at least \$15.50 per hour worked during your tax year. Don't include the wages of employees earning more than \$48.08 per hour.

Project Site

This is the location of new plant and building facilities owned or leased by the taxpayer. The project site can be one or more geographic areas in Idaho but only if 80% or more of the investment required is located at one of the areas.

Project Period

This is the period of time that begins at the earlier of:

- A physical change to the project site or
- The first employment of new employees in Idaho who are related to the activities at the project site.

The project period can't begin before January 1, 2006.

The project period ends when all of the project's facilities are placed in service but no longer than 10 years or later than December 31, 2030.

New Plant and Building Facilities

This includes property that meets either the definition of qualified investment for purposes of the investment tax credit (ITC) or is a building or a structural component of a building.

The property must be new property. Used property doesn't qualify. New property is property acquired or constructed by the taxpayer whose original use begins with the taxpayer after acquisition or construction. Original use means the first use of the

property, whether or not that corresponds to the use of the property by the taxpayer. Property used by the taxpayer before its acquisition doesn't qualify.

New Employees

To qualify as a new employee for the tax incentive criteria an employee must:

- Be employed primarily at the project site by the taxpayer
- Have wages subject to Idaho income tax withholding
- Be covered for Idaho unemployment insurance purposes
- Be eligible to receive employer-provided coverage under a health plan described in Idaho Code section 41-4703
- Be employed on a regular full-time basis
- Meet the applicable wage requirements

For this purpose, earnings include income subject to Idaho income tax withholding but don't include stock options or restricted stock grants.

An existing employee of the taxpayer or a related taxpayer who's transferred to a new position at the project site won't qualify as a new employee unless the transfer results in a net new job in Idaho.

Once reached, you must maintain the net increase in employment at the project site for the rest of the project period.

Tax Incentives

If you've met or will meet the tax incentive criteria, you're eligible to claim the tax incentives listed in the table on page 2.

Recapture

If you certify you'll meet the tax incentive criteria and then don't meet that criteria, you'll be required to recapture the full amount of any incentives claimed.

You may need to recapture all or a portion of the incentives if you:

- Dispose of an investment in new plant or building facilities or it no longer qualifies before being held for five years from the date placed in service
- Don't maintain the required level of employment for five years from the date the project period ends or
- Don't use, store or otherwise consume property that was allowed a sales tax exemption within the project site for a period of five full years from the date the property was placed in service.

IDAPA 35
TITLE 01
CHAPTER 03
SECTION 631

631. TAX EXEMPTION FOR INVESTMENT IN NEW OR EXISTING PLANT AND BUILDING FACILITIES UPON COUNTY COMMISSIONERS' APPROVAL (RULE 631).

Section 63-602NN, Idaho Code

01. The Investment in Plant. In order to qualify for this exemption a taxpayer must invest at least the minimum required investment as established by county ordinance in new or existing plant or building facilities excluding the investment in land. (3-28-18)

a. Ordinance to establish the minimum required investment. The county commissioners must pass an ordinance to establish any minimum required investment amount of not less than five hundred thousand dollars (\$500,000). Once passed, any minimum so established shall remain in place until superseded by another ordinance. (3-28-18)

b. Frequency of ordinances to establish minimum required investment. Any ordinance establishing a minimum required investment must remain in effect during the tax year in which it is first in effect. After that tax year, the county commissioners may provide a different required investment amount by passing a new ordinance. However, any agreement entered into under minimum investment criteria established by prior ordinance will be effective for the duration of the exemption time period granted. (3-28-18)

02. The Exemption. The board of county commissioners may agree to exempt all or a portion of the value of non-retail commercial and industrial real property improvements and associated personal property that would otherwise be in excess of the base value for property designated as the defined project for a period of up to five (5) years. Real property improvements owned or leased, and personal property owned, by the taxpayer applying for the exemption may be granted the exemption. Land is not eligible to be included in this exemption. (3-28-18)

a. Base value. The base value is the taxable value, as found on the property roll, subsequent property roll, or missed property roll, of the property associated with the plant investment for the tax year immediately preceding the first year in which the exemption is to be granted. This includes the taxable value of existing buildings and personal property but not the taxable value of land. (3-28-18)

b. Site improvements. Site improvements, which may add value to land, but are not otherwise categorized as improvements for property tax purposes, are not eligible for this exemption. (3-28-18)

c. Mixed use properties. Non-retail portions of any mixed use building or structure otherwise used for commercial or industrial purposes may qualify. (3-28-18)

d. Application. Except as provided in Paragraph 631.02.f. with respect to occupancy tax, the taxpayer must make application by April 15 of the first year for which the exemption is sought. Such application must be made with the county commissioners who have complete discretion to accept or deny the application. (3-28-18)

e. Agreement for exemption. The agreement granting the exemption shall be considered a contract arrangement between the county and the taxpayer for the exemption time period as granted by the county commissioners, not to exceed five (5) years. The amount of exemption as provided by the agreement may be any amount related to taxable value added due to the investment, to the extent the property's total taxable value before considering the exemption exceeds the base value and the increase in value is not associated with or due to an increase in land value. (3-28-18)

f. Occupancy tax. As provided in Section 63-602Z, Idaho Code, the exemption may apply to property subject to occupancy tax. Granting of the exemption from occupancy tax will not reduce the period during which the property tax exemption provided in Section 63-602NN, Idaho Code, may be granted. The April 15 application deadline is not applicable to exemption from occupancy tax, which may be granted any time during the year. (3-28-18)

03. Examples. The exemption applies only to plant or building facilities in which the required investment is to be made during the project period and that are located at the project site. The exemption may be applied to any value increases if these increases are directly attributable to the investment. See the following clarifying examples, all of which are based on the assumptions that the county has established five hundred thousand dollars (\$500,000) as the required minimum amount of investment and the county enters into an agreement with the taxpayers for the period shown in the examples. (3-28-18)

a. A company chooses your community to tear down an existing facility and build a new manufacturing facility. Prior to the project, the base value is four million dollars (\$4,000,000) which is comprised of the market value of the land three million dollars (\$3,000,000) and the market value of the existing facility at one million dollars (\$1,000,000), thus, the base value is one million dollars (\$1,000,000). After construction, the land and facility have a taxable value of thirteen million dollars (\$13,000,000), three million (\$3,000,000) of which is the land value. Providing all conditions of the agreement have been met and the commissioners agreed to a full exemption, the exempt amount will be nine million dollars (\$9,000,000). (3-28-18)

b. An existing company chooses to expand and build a new processing line. Prior to the project, the base value of the existing building and land is twelve million dollars (\$12,000,000). After the expansion project is complete, the new processing line increased the value of the building and land to sixteen million dollars (\$16,000,000), with all of the increase in value attributed to the building. Providing all conditions of the agreement have been met and the commissioners previously agreed to a full exemption, the exempt amount will be four million dollars (\$4,000,000). No portion of the original taxable value of twelve million dollars (\$12,000,000) can be granted this exemption. (3-28-18)

c. A company purchases an existing building and land which are valued at eight million dollars (\$8,000,000). The company will purchase new equipment in the amount of three million dollars (\$3,000,000). After the investment is made, the existing land, building and equipment are now valued at twelve million dollars (\$12,000,000). The additional one million dollars (\$1,000,000) in building value is attributed to the contributory value of the investment. The investment did not add value to the land. Providing all conditions of the agreement have been met and the commissioners agreed to a full exemption, the exempt amount will be four million dollars (\$4,000,000). No portion of the original taxable value of eight million dollars (\$8,000,000) can be granted this exemption. (3-28-18)

d. A company buys a building with a prior year's value of one million dollars (\$1,000,000). The company makes application to the county commissioners requesting a full exemption for the next five (5) years for any increases in value that are directly related to its plan to invest in the facility. An agreement is reached whereby the taxpayer will be granted a limited exemption for the increase in market value up to two million dollars (\$2,000,000) for three years. In the first year, the company invests two million dollars (\$2,000,000) in the facility and the market value of the building increases to two million five hundred thousand dollars (\$2,500,000) (not all of the investment contributes to market value). Providing all conditions of the agreement have been met, the first year exempt amount will be one million five hundred thousand dollars (\$1,500,000). In year two (2), the company invests an additional eight hundred thousand dollars (\$800,000) and the value of the building increases to three million three hundred thousand dollars (\$3,300,000). The exemption in year two (2) will be two million dollars (\$2,000,000). This is the difference between the original base value of one million dollars (\$1,000,000) and the current value in year two (2), but is limited by the agreed-upon two million dollar (\$2,000,000) maximum. In year three (3), the company makes additional investments and the building value increases to four million dollars (\$4,000,000). The exemption in year three (3) is limited to two million dollars (\$2,000,000) as provided in the original agreement. Beginning in year four (4), there will be no exemption allowed under the original agreement. (3-28-18)

TITLE 63
REVENUE AND TAXATION
CHAPTER 6
EXEMPTIONS FROM TAXATION

63-602NN. PROPERTY EXEMPT FROM TAXATION — CERTAIN BUSINESS PROPERTY. (1) Provided that there is a plant investment that meets all tax incentive criteria as defined in subsection (2) of this section, the board of county commissioners may exempt all or a part of the change from the base value attributable directly to the plant investment.

(2) As used in this section:

(a) "Base value" means the assessed value on the county's property rolls of property associated with the plant investment from the year immediately preceding the year representing the beginning of the project period during which a plant investment pursuant to this section occurs.

(b) "Building or structural components of buildings" means real property improvements to land as defined in section [63-201\(11\)](#), Idaho Code, that are owned or leased by the taxpayer and located in Idaho within the boundaries of the project site.

(c) "Defined project" means a written plan presented to the county commissioners by a taxpayer outlining projected investment in new plant for new plant and building facilities during a project period and located at a project site.

(d) "Plant investment" means investment in new or existing plant and building facilities. Such plant and building facilities include buildings or structural components of buildings, related parking facilities, food service facilities, business office facilities and other building facilities directly related to the business making the plant investment. Plant investment also includes investments in the personal property associated with the plant and its facilities.

(e) "Project period" means the period of time beginning at the earlier of a physical change to the project site or the first employment of new employees or contractors located in Idaho who are related to the activities at the project site.

(f) "Project site" means an area or areas at which the affected plant and building facilities are located and at which the tax incentive criteria have been or will be met and which are either:

(i) A single geographic area located in this state at which the affected plant and building facilities owned or leased by the taxpayer are located; or

(ii) One (1) or more geographic areas located in this state if eighty percent (80%) or more of the plant investment is made at one (1) of the areas.

(g) "Tax incentive criteria" means the following conditions:

(i) The board of county commissioners shall by ordinance establish an investment amount not less than five hundred thousand dollars (\$500,000) at all project sites within the county for which the exemption and all exemptions thereafter granted shall apply, thereby providing uniformity to all taxpayers;

(ii) The plant investment will bring significant economic benefits to the county; and

(iii) The plant or building facilities will be for nonretail purposes that are either commercial or industrial.

(3) The board of county commissioners may grant the property tax exemption for the defined project for a period of up to five (5) years. The agreement shall be considered a contract arrangement between the county and the taxpayer for the exemption time period granted by the board of county commissioners and the annual approval provision contained in subsection (3) of section 63-602, Idaho Code, shall not apply to the exemption provided in this section as long as the contract enumerated in this section is valid and in force and effect. If, within the project period, the use or nature of the defined project or investment in the new plant changes such that the project would no longer qualify for the tax exemption, the board of county commissioners may unilaterally terminate the agreement and withdraw the tax exemption.

(4) When considering whether to grant the property tax exemption, the board of county commissioners may consider trade secrets, as defined in section 74-107(1), Idaho Code, in executive session as allowed in section 74-206(1)(d), Idaho Code.

(5) Before granting a property tax exemption under this section, the board of county commissioners shall hold a public meeting regarding whether to grant the exemption. The board of county commissioners shall provide a summary of the application under consideration, a written notice of the time, date and location of the public meeting, and an invitation to participate in the meeting to all affected taxing districts, urban renewal agencies and the Idaho department of commerce at least five (5) calendar days before the meeting.

(6) Property exempted under this section shall not be included on any new construction roll prepared by the county assessor in accordance with section 63-301A, Idaho Code, until the exemption ceases.

(7) The legislature declares this exemption necessary and just.

IDAPA 35
TITLE 01
CHAPTER 03
SECTION 630

630. TAX EXEMPTION FOR NEW CAPITAL INVESTMENTS (RULE 630).

Section 63-4502, Idaho Code

01. Notification of New Capital Investment. (3-29-12)

a. Prior to receiving the benefit of the tax exemption, the taxpayer shall notify the county in which the project site is located that the taxpayer expects to meet the criteria of the New Capital Investments Tax exemption. Notification shall be accomplished by submitting a written declaration or notification with the board of county commissioners containing the following information: (4-4-13)

i. The name and address of the taxpayer; (3-29-12)

ii. A description of the new capital investment project; (3-29-12)

iii. The assessor's parcel number(s) identifying the location of the project site; (3-29-12)

iv. The date that the qualifying period began; (3-29-12)

v. A statement that the taxpayer will make a qualified new capital investment of at least one billion dollars (\$1,000,000,000) within the qualifying period, which shall be specified. (3-29-12)

b. The notification required hereunder may be submitted by the taxpayer to the board of county commissioners at any time after the qualifying period begins. However, if the notification is submitted after April 15 in a given year, a taxpayer may receive the benefit of the exemption only for tax years following the year in which the notification is filed. Submittal of the notification required hereunder shall constitute application for the exemption in compliance with Section 63-602, Idaho Code. Until the taxpayer meets all the requirements for the New Capital Investments Tax exemption, for each year after the first year in which the exemption is granted, the notice must identify the name and address of the taxpayer and the location of the project site, but does not need to provide additional information as required in Paragraph 630.01.a. of this rule. (4-4-13)

02. **Property of the Taxpayer.** Property of a taxpayer includes all real or personal property that is owned by or leased to the taxpayer under an agreement that makes the taxpayer responsible for the payment of any property taxes on the property. (3-29-12)

03. **New Construction.** Property taxable under Section 63-4502, Idaho Code and that qualifies for listing on the new construction roll as described by Section 63-301(A)3, Idaho Code, should be listed on the new construction roll. (3-29-12)

04. Failure to Make the Qualifying New Capital Investment. (4-4-13)

a. If the taxpayer fails to make the qualifying new capital investment during the qualifying period, the property shall lose the exemption granted by this section at the conclusion of the qualifying period. (4-4-13)

b. In the event that, at any time during the project period, the taxpayer no longer intends to fulfill the qualified new capital investment requirements, the taxpayer must notify the county commissioners who shall notify the county assessor. Upon receipt of such notification, the property shall be taxable for the remainder of the year in which the notification is provided, pursuant to Section 63-602Y, Idaho Code. Failure of the taxpayer

to provide such notice does not prevent the county assessor from discovering the taxpayer's intent through alternate procedures and then notifying the county commissioners that the requirements for the exemption are no longer met. In such an instance, the taxpayer must be notified and may appeal loss of the exemption to the county board of equalization as provided in Section 63-501A, Idaho Code. (4-4-13)

05. Continuation of Tax Exemption Following the End of the Project Period. (4-4-13)

a. At any time during the qualifying period, but not later than ninety (90) days after the conclusion of the qualifying period, the taxpayer must provide notice to the county commissioners with sufficient evidence to prove that the required qualifying new capital investment has been made. (4-4-13)

b. Once the taxpayer has successfully met all the requirements pursuant to Section 63-4502, Idaho Code, and provided notice to the county commissioners pursuant to Paragraph 630.05.a. of this rule, the county commissioners shall notify the county assessor and taxpayer of the taxpayer's continuing qualification for the exemption for all years thereafter. The county assessor shall retain this notice. (4-4-13)

c. After the year in which the taxpayer has been notified of continuing qualification as provided in Paragraph 630.05.b. of this rule, the taxpayer must continue to notify the county annually to identify the property to be exempted pursuant to Subsection 630.05. Failure to make such notification will not invalidate the exemption; the county assessor must then apply the exemption against the assessed value of the taxpayer's highest value parcel within the county. (4-4-13)

06. Cross Reference. For an explanation of the treatment of new construction relating to Sections 63- 802 and 63-301A, Idaho Code, see Rule 802 of these rules. (3-29-12)

(5)(a) Nothing contained in this section shall affect the taxation of forest lands or forest products pursuant to [chapter 17, title 63](#), Idaho Code, or the taxation of the net profits of mines pursuant to [chapter 28, title 63](#), Idaho Code.

(b) The exemption from personal property tax provided for in subsection (2) of this section shall not apply to motor vehicles, recreational vehicles, aircraft and boats that are not registered with the state of Idaho and for which required registration fees have not been paid.

(b) The application for this exemption, if the county is capable of so providing, may be transmitted by the county assessor electronically, as that term is defined in section [63-115](#), Idaho Code, when requested by the taxpayer, or mailed by the county assessor to the taxpayer, or his agent or representative at the taxpayer's last known post office address, no later than March 1 of each year. (iii) The taxpayer has not made purchases of personal property, excluding items of taxable personal property exempted pursuant to subsection (1) of this section, that would cause the taxable value of the personal property owned by the taxpayer to exceed the maximum amount allowed as an exemption by this section.

(d) Knowingly failing to report changes in the taxable value of personal property that exceed the amount of the exemption allowed pursuant to this section shall subject the taxpayer to a fine not in excess of ten thousand dollars (\$10,000) in addition to other penalties set forth in this chapter.

(7) Recovery of property tax exemptions allowed by this section but improperly claimed:

(a) Upon discovery of evidence, facts or circumstances indicating any exemption allowed by this section was improperly claimed, the county assessor shall decide whether the exemption claimed should have been allowed and, if not, notify the board of county commissioners, at which time the board may waive a recovery of the property tax and notify such taxpayer in writing.

(d) For purposes of calculating the tax, the amount of the recovered property tax shall be for each year the exemption allowed by this section was improperly claimed or approved, up to a maximum of seven (7) years. The amount of the recovery of property tax shall be calculated using the product of the amount of exempted value for each year multiplied by the levy for that year plus costs, late charges and interest for each year at the rates equal to those provided for delinquent property taxes during that year. In cases of fraud, the fine set forth in subsection (6)(d) of this section shall be assessed for each tax year.

(g) Thirty (30) days after the taxpayer is notified, as provided in paragraph (a) of this subsection, the assessor shall record a notice of intent to attach a lien. Upon the payment in full of such recovered property taxes prior to the attachment of the lien as provided in paragraph (h) of this subsection, or upon the successful appeal by the taxpayer, the county assessor shall record a rescission of the intent to attach a lien within seven (7) business days of receiving such payment or within seven (7) business days of the county commissioners' decision granting the appeal.

(i) For purposes of the limitation provided by section [63-802](#), Idaho Code, moneys received pursuant to this subsection as recovery of property tax shall be treated as property tax revenue.

(8) For operating property with values apportioned to more than one (1) county, the personal property exemption shall be subtracted from the Idaho allocated value prior to apportionment and, for private railcar companies, prior

SALES TAX

Production Sales Tax Exemption

The production exemption eliminates sales tax on purchases of materials and supplies used directly in the production process by farmers, manufacturers and other producers. The exemption also applies to purchases of certain kinds of production equipment. The equipment must be “directly” (its function must be a direct part of the production process) and “primarily” (more than 50% of its use must be in the production process) used in the production process.

To qualify:

- The business or segment of a business (a division or branch with its own identity and separate accounting records) must spend the majority of its time producing products that will be resold.
- The business or segment of a business must be engaged in one of these activities:
 - Farming
 - Mining
 - Ranching
 - Fabrication
 - Manufacturing
 - Processing
- The business or segment of a business must be “primarily” devoted to producing a product for resale. This means that more than 50% of its activities must involve production.
- The business or segment of a business needs to own the goods being manufactured, processed, etc. The production exemption does not apply to the service-oriented businesses, with the exception of custom farming and contract mining.

Purchases that are exempt:

The production exemption allows tax-free purchases of:

- Raw materials that become part of a final product.
- Chemicals and catalysts that affect a production by causing a physical change and removing impurities.
- Equipment or other tangible personal property which is “primarily” and “directly” used in the production process.
- Safety equipment and supplies that are used directly in the production process and used to meet required standards set by state and federal agencies.

Administrative Rules: 35.01.02.079 Production Sales Tax Exemption

IDAPA 35
TITLE 01
CHAPTER 02
SECTION 079

079. PRODUCTION EXEMPTION (RULE 079).

Sections 63-3622, 63-3622D, & 63-3622HH, Idaho Code.

01. In General. Section 63-3622D, Idaho Code, known as the production exemption, provides an exemption from sales and use taxes for certain tangible personal property used in production activities. The production activities include: (5-8-09)

a. A manufacturing, processing, or fabrication operation primarily devoted to producing tangible personal property that it will sell and is intended to be ultimately sold at retail. (5-8-09)

b. The following types of businesses may also qualify for the exemption, even though they perform services and do not actually sell tangible personal property: (5-8-09)

i. The business of custom farming or operating a farm or ranch for profit. (7-1-93)

ii. The business of contract mining or operating a mine for profit. (6-23-94)

iii. Businesses devoted to processing tangible personal property for use as fuel for the production of energy. (5-8-09)

02. Qualifying Businesses. The production exemption applies only to a business or a separately operated segment of a business that primarily produces tangible personal property which is intended for ultimate sale at retail. (7-1-93)

a. For the purposes of this rule, a separately operated segment of a business is a segment of a business for which separate records are maintained and which is operated by an employee or employees whose primary employment responsibility is to operate the business segment. (7-1-93)

b. The production exemption does not include the performance of contracts to improve real property, such as road or building construction, or to service-related businesses not devoted to the production of tangible personal property for ultimate sale at retail. (7-1-93)

c. To qualify for the production exemption, a business must sell the products it produces or processes. The only exceptions are businesses primarily devoted to processing fuel to be used for the production of energy; custom farming; and contract mining. (5-8-09)

03. Exempt Purchases. As applied to manufacturing, processing, mining, or fabrication operations, sales and purchases of the following tangible personal property are exempt, except as limited by other subsections of this rule: (4-11-06)

a. Raw materials that become an ingredient or component part of the product which is produced. (7-1-93)

b. Equipment and supplies used or consumed primarily and directly in the production process and which are necessary or essential to perform the operation. To qualify, the production use must be the primary use of the equipment and supplies. Also, the equipment and supplies must be used directly in the production process. (7-1-93)

- c. Chemicals and catalysts consumed in the production process which are used directly in the process but which do not become an ingredient or component part of the property produced. (7-1-93)
- d. Repair parts, lubricants, hydraulic oil, and coolants, which become a component part of production equipment. (7-1-93)
- e. Fuel, such as diesel, gasoline, and propane used in equipment while performing production exempt activities. (7-1-93)
- f. Chemicals and equipment used in clean-in-place systems in the food processing and food manufacturing industries. (7-1-93)
- g. Safety equipment and supplies required by a state or federal agency when used directly in a production area. (7-1-93)
- h. Equipment such as cranes, manlifts, and scissorlifts used primarily to install production equipment. (7-1-93)
- i. Equipment used primarily to fabricate production equipment. (7-1-93)
- j. Equipment and supplies used in the performance of a quality control function which is an integral and necessary step in maintaining specific product standards. (3-29-17)

04. Production Process Beginning and End. The production process begins when raw materials used in the process are first handled by the operator at the processing plant or site. The production process ends when the product is placed in storage, however temporary, ready for shipment or when it reaches the final form in which it will be sold at retail, whichever occurs last. See Rule 083 of these rules regarding farming. (3-29-17)

05. Taxable Purchases. The production exemption does not include any of the following: (4-11-06)

- a. Motor vehicles required to be licensed by Idaho law. A motor vehicle required to be licensed, but not actually licensed, is taxable. A motor vehicle not required to be licensed is exempt under the production exemption only if it meets the tests in Subsection 079.03 of this rule. (7-1-93)
- b. Repair parts for any equipment which does not qualify for the production exemption. (7-1-93)
- c. Office equipment and supplies. (7-1-93)
- d. Safety equipment and supplies used somewhere other than a production area, such as an office, or which are not required by a state or federal agency even if used in a production area. (7-1-93)
- e. Equipment and supplies used in selling and distribution activities. (7-1-93)
- f. Janitorial equipment and supplies, other than disinfectants used in the dairy industry to clean pipes, vats, and udders, and clean-in-place equipment and chemicals used in food processing or food manufacturing. (7-1-93)
- g. Maintenance and repair equipment and supplies which do not become component parts of production equipment, such as welders, welding gases, shop equipment, etc. (7-1-93)
- h. Transportation equipment and supplies. (7-1-93)
- i. Aircraft of any type and supplies. (7-1-93)

- j. Paint, plastic coatings, and similar products used to protect and maintain equipment, whether applied to production equipment or other equipment. (7-1-93)
- k. Other incidental items not directly used in production. (7-1-93)
- l. Fuel used in equipment while performing activities that do not qualify for the production exemption. (7-1-93)
- m. Recreation-related vehicles as described in 63-3622HH, Idaho Code, regardless of use. (3-28-18)
- n. Parts to repair recreation-related vehicles. (7-1-93)
- o. Equipment used primarily to construct, improve, alter or repair real property. (7-1-93)

06. Real Property. The production exemption applies only to tangible personal property. It does not apply to real property or to tangible personal property purchased with the intention of becoming improvements or fixtures to real property. The production exemption does not apply to equipment and materials primarily used to improve real property. (3-20-14)

07. Change in Primary Use of Property. If tangible personal property is purchased for a use which qualifies for the production exemption but later is used primarily for another purpose, it becomes taxable at its fair market value when it ceases to qualify for the exemption. For instance, a loader may be used primarily in a mining operation when purchased. If the primary use of the loader is later changed from mining to road building, it becomes taxable at its fair market value when it ceases to be used for mining. If tax is paid on tangible personal property because no exemption applies at the time of purchase, and the property later becomes eligible for the production exemption, no refund is due the owner. (7-1-93)

08. Transportation Activities. Equipment and supplies used in transportation activities do not qualify for the production exemption. (7-1-93)

a. Transportation includes the movement of tangible personal property over private or public roads or highways, canals, rivers, rail lines, through pipelines or slurry lines, or on private or public aircraft. (7-1-93)

b. Transportation includes movements of tangible personal property from one separate location which is a continuous manufacturing, processing, mining, fabricating or farming activity to another separate location which is a continuous exempt activity or process. (7-1-93)

c. Transportation includes movement of raw materials, except farm produce, from a point of initial extraction or severance or importation to a point where processing, manufacturing, refining or fabrication begins. See Rule 083 of these rules regarding farming. (3-15-02)

09. Exemption Certificate. To claim the production exemption the customer must complete an exemption certificate for the seller's records. See Rule 128 of these rules. (3-15-02)

10. Special Rules. Special rules apply to irrigation equipment, contractors, loggers, and farmers who act as retailers. Refer to the specific rules relating to those subjects. (7-1-93)

(h) Any tangible personal property exempt under this section which ceases to qualify for this exemption, and does not qualify for any other exemption or exclusion of the taxes imposed by this chapter, shall be subject to use tax based upon its value at the time it ceases to qualify for exemption. Such business entities shall be entitled to a provisional exemption pursuant to this section during the period in which they make capital investments in data center property. If a business entity fails to meet the investment and job creation requirements provided within the time periods required in this section, it shall pay sales or use taxes that would have been due if not for the granting of the provisional exemption. SECTION 2. That Section 63-301A, Idaho Code, be, and the same is hereby amended to read as follows:

63-301A. NEW CONSTRUCTION ROLL. (1) The county assessor shall prepare a new construction roll, which shall be in addition to the property roll, which new construction roll shall show:

(a) The name of the taxpayer;

(b) The description of the new construction, suitably detailed to meet the requirements of the individual county;

(c) A description of the land and its change in use, suitably detailed to meet the needs of the individual county;

(d) The amount of taxable market value added to the property on the current year's property roll that is directly the result of new construction or a change in use of the land or both;

(e) The amount of taxable market value added as provided in subsection (3)(g) of this section as a result of dissolution of any revenue allocation area;

(i) Any board of tax appeals or court-ordered value change, if property has a taxable value lower than that shown on any new construction roll in any one (1) of the immediate five (5) tax years preceding the current tax year;

(ii) Any reduction in value resulting from correction of value improperly included on any previous new construction roll as a result of double or otherwise erroneous assessment;

(iii) Any reduction in value, in any one (1) of the immediate five (5) tax years preceding the current tax year, resulting from a change of land use classification;

(iv) Any reduction in value resulting from the exemption provided in section 63-602W(4), Idaho Code, in any one (1) of the immediate five (5) tax years preceding the current tax year.

(2) As soon as possible, but in any event by no later than the first Monday in June, the new construction roll shall be certified to the county auditor and a listing showing the amount of value on the new construction roll in each taxing district or unit be forwarded to the state tax commission on or before the fourth Monday in July. Provided however, the value shown in subsection (3)(f) of this section shall be reported to the appropriate county auditor by the state tax commission by the third Monday in July and the value

sent by the county auditor to each taxing district. The value established pursuant to subsection (3)(f) of this section is subject to correction by the state tax commission until the first Monday in September and any such corrections shall be sent to the appropriate county auditor, who shall notify any affected taxing districts.

No replacement equipment or improvements may be included; or
- (g) Provided such increases do not include increases already reported on the new construction roll as permitted in paragraphs (j) and (k) of this subsection, increases in value over the base value of property on the base assessment roll within an urban renewal revenue allocation area that has been terminated pursuant to section 50-2909(4), Idaho Code, to the extent that this increment exceeds the incremental value as of December 31, 2006, or, for revenue allocation areas formed after December 31, 2006, the entire increment value. Notwithstanding other provisions of this section, the new construction roll shall not include new construction located within an urban renewal district's revenue allocation area, except as provided in this paragraph; or
- (h) New construction, in any one (1) of the immediate five (5) tax years preceding the current tax year, allowable but never included on a new construction roll, provided however, that, for such property, the value on the new construction roll shall reflect the taxable value that would have been included on the new construction roll for the first year in which the property should have been included.

(k) Increases in base value when due to previously determined increment value added to the base value as a result of a de-annexation within a revenue allocation area as defined in section 50-2903, Idaho Code. In this case, the amount added to the new construction roll will equal the amount by which the increment value in the year immediately preceding the year in which the de-annexation described in this subsection occurs exceeds the incremental value as of December 31, 2006, or, for revenue allocation areas formed after December 31, 2006, the entire increment value within the area subject to the de-annexation.

(4) The amount of taxable market value of new construction shall be the change in net taxable market value that is attributable directly to new construction or a change in use of the land or loss of the exemption provided by section 63-602W(3) or (4), Idaho Code. It shall not include any change in value of existing property that is due to external market forces such as general or localized inflation, except as provided in subsection (3)(g) of this section.

(5) The amount of taxable market value of new construction shall not include any new construction of property that has been granted a provisional property tax exemption, pursuant to section 63-1305C, Idaho Code. This legislation was passed in the 2022 legislative session and is codified in statute. It was dependent upon the Federal CHIPS and Science Act of 2022 which was signed into law on August 9, 2022.

To be eligible for the tax exemption, companies must:

- To qualify for the exemption in this section, an applicant must submit a project outline to the Idaho department of commerce on or before December 31, 2026. Modifications to an approved qualifying project outline must be submitted to the Idaho department of commerce on or before December 31, 2040.

63-3622WW. IDAHO SEMICONDUCTORS FOR AMERICA ACT. (1) This section shall be known and may be cited as the "Idaho Semiconductors for America Act."

(2) It is the intent of the legislature that the Idaho semiconductors for America act will meet all criteria set forth in federal law and program guidelines from the United States department of commerce or other delegated agency of the federal government to implement the domestic fabrication, assembly, testing, advanced packaging, or research and development of semiconductors to mitigate domestic supply chain risks, increase economic competitiveness, protect intellectual property, and decrease national security risks.

(3) On and after July 1, 2022, there is exempted from the taxes imposed by this chapter the purchase or use of construction and building materials directly used for a qualifying purpose by a qualifying covered entity for a qualifying project in Idaho during the project term. To qualify for the exemption in this section, an applicant must submit a project outline to the Idaho department of commerce on or before December 31, 2026. Modifications to an approved qualifying project outline must be submitted to the Idaho department of commerce on or before December 31, 2040.

(a) "Construction and building materials" means materials and supplies permanently installed or placed in or on a qualifying project. The term does not mean equipment, tools, and supplies used to construct or build the project.

(b) "Covered contractor" means any contractor, including subcontractors, that incurs costs and taxes from work done for a qualifying covered entity for a qualifying project.

(c) "Covered entity" means a private entity, a consortium of private entities, or a consortium of public and private entities with a demonstrated ability to engage in a qualifying project.

(d) "Project term" means the time period beginning on July 1, 2022, and ending upon the completion of the construction of the qualifying project, but no later than December 31, 2040.

(e) "Qualifying covered entity" means a covered entity that submits a qualifying project outline to the Idaho department of commerce that:

(i) Qualifies for a new, meaningful semiconductor incentive offered by the federal government for the purpose of implementing the domestic fabrication, assembly, testing, advanced packaging, or research and development of semiconductors to mitigate domestic supply chain risks, increase economic competitiveness, protect intellectual property, decrease national security risks, and any other reasons deemed necessary by the federal government. Meaningful incentives by the federal government include but are not limited to funding the CHIPS for America act, 15 U.S.C. 4651 through 4658, or providing and funding other such semiconductor investment tax credits; and

(ii) Qualifies for a meaningful incentive from the state of Idaho for a qualifying project for a qualifying purpose. Examples of meaningful incentives from the state of Idaho include but are not limited to the Idaho reimbursement

incentive act, sections [67-4737](#) through [67-4744](#), Idaho Code; the Idaho small employer incentive act of 2005, [chapter 44, title 63](#), Idaho Code; and the Idaho new capital investments incentives act of 2008, [chapter 45, title 63](#), Idaho Code.

(f) "Qualifying project" means a new project for a qualified purpose by a covered entity.

(iv) A facility where substantially all of the activities occurring at or in it constitute elements of a process of experimentation for semiconductor fabrication, assembly, testing, or advanced packaging for a purpose described in 26 U.S.C. 41(d)(3).

(5) The provisions of this section are contingent on the enactment and funding of a federal law providing a new and meaningful federal semiconductor incentive by December 31, 2026. If no such incentive is enacted and funded on or before December 31, 2026, no project or covered entity may qualify for an exemption under this section.

Administrative Rules: 35.01.03.37 Aircraft Sales Exemption

IDAPA 35
TITLE 01
CHAPTER 02
SECTION 037

037. AIRCRAFT AND FLYING SERVICES (RULE 037).

Section 63-3622GG, Idaho Code

01. Definitions. For the purposes of this rule, the following terms have the following meanings: (7-1-94)

a. Recreational Flight. The hiring on demand of an aircraft with a pilot to transport passengers for a recreational purpose. Examples are a pleasure ride, sightseeing, wildlife viewing, hot air balloon rides, or other similar activities. (4-11-06)

b. Freight. Goods transported by a carrier between two (2) points. Freight does not include goods which are being transported for the purpose of aerial spraying or dumping. See Subsection 037.06 of this rule. (4-11-06)

c. Transportation of Passengers. The transportation of passengers means the service of transporting passengers from one (1) point to another. It does not include survey flights, recreational or sightseeing flights, nor does it include any flight that begins and ends at the same point. (4-11-06)

d. Nonresident Individual. An individual as defined by Section 63-3014, Idaho Code. (7-1-94)

e. Nonresident Businesses and Other Organizations. A corporation, partnership, limited liability company, or other organization will be considered a nonresident if it is not formed under the laws of the state of Idaho, is not required to be registered to do business with the Idaho Secretary of State, does not have significant contacts with this state, and does not have consistent operations in this state. A limited liability company (LLC) or other legal entity formed by an Idaho resident under the laws of another state primarily for the purpose of purchasing and owning one (1) or more aircraft is not a nonresident. The use of an aircraft owned by such an entity will be subject to use tax upon its first use in Idaho. (4-4-13)

f. Day. For the purpose of this rule any part of a day is a day. (7-1-94)

g. Transportation of freight or passengers for hire. "Transportation of freight or passengers for hire" means the business of transporting persons or property for compensation from one (1) location on the ground or water to another. (4-4-13)

h. Common Carrier. The operation of an aircraft in the transportation of freight or passengers for hire by members of the public. When operating as a common carrier, the operator or owner of an aircraft usually charges a rate that will generate a profit. For flights in which federal regulations limit or minimize this profit, the aircraft is likely not operating as a common carrier. (4-4-13)

i. Public. The public does not include: (4-4-13)

i. Owners or operators of the aircraft; (4-4-13)

ii. Employees of the aircraft owner or operator; (4-4-13)

iii. Guests of the aircraft owner or operator; (4-4-13)

iv. Any of the above with the same relationship to a parent of the aircraft owner, a subsidiary of that parent, or a subsidiary of the aircraft owner; (4-4-13)

v. An individual or entity flying under a time sharing agreement which is an arrangement where an aircraft owner leases his aircraft with flight crew to another individual or entity and the aircraft owner limits the amount charged in accordance with federal regulations; or (4-4-13)

vi. An individual or entity flying under an interchange agreement which is an arrangement where an aircraft owner leases his aircraft to another aircraft owner in exchange for equal time on the other owner's aircraft and any fees charged may not exceed the difference between the costs of owning, operating, and maintaining the two (2) aircraft. (4-4-13)

02. Sales of Aircraft. Sales of aircraft are taxable unless an exemption applies. Section 63-3622GG, Idaho Code, provides an exemption for the sale, lease, purchase, or use of an aircraft: (4-11-06)

a. Primarily used to provide passenger or freight services for hire as a common carrier; (4-4-13)

i. Example 1: An aircraft is flown for the following activities: the aircraft owner's personal vacations, flight instruction, and charter operations for hire as a common carrier. The flight hours for each activity are forty-five (45), sixty-five (65) and seventy-five (75) hours respectively in a consecutive twelve (12) month period. The combined flight hours for the taxable uses of the aircraft, owner and flight instruction, (45 + 65 = 110 hours) are more than the hours operating as a common carrier (75 hours). Since the greater use of the aircraft is performing activities that do not qualify for an exemption, the use of the aircraft will be taxable at fair market value as of that point in time. (3-20-14)

ii. Example 2: A charter aircraft service uses an aircraft for three purposes: flight instruction, air ambulance service, and charter flights operated as a common carrier. The flight hours for each activity are one hundred (100), sixty (60) and fifty (50) respectively in a consecutive twelve (12) month period. The combined flight hours for the exempt uses of the aircraft, as an air ambulance and as a common carrier (60 + 50 = 110 hours), are more than the hours used for flight instruction one hundred (100) hours. Since the greater use of the aircraft is performing activities that qualify for an exemption, the use of the aircraft will be exempt. (3-20-14)

b. Primarily used for emergency transportation of sick or injured persons; (3-29-17)

c. That is a fixed-wing aircraft primarily used as an air tactical group supervisor platform under a contract with a governmental entity for wildfire activity; or (3-29-17)

d. Purchased for use outside this state, when the aircraft is upon delivery taken outside this state, but only if: (3-20-04)

i. The aircraft is sold to a nonresident as defined in Subsection 037.01.d. or 037.01.e. of this rule; and (3-30-07)

ii. The registration will be immediately changed to show the new owner and the aircraft will not be used in this state more than ninety (90) days in any consecutive twelve (12) month period. (4-4-13)

03. Sales of Aircraft Repair Parts to Nonresidents. Subject to the restrictions of Section 63-3622GG,

Idaho Code, sales of aircraft repair parts are exempt from tax when installed on an aircraft owned by a nonresident individual or business as defined in Subsection 037.01 of this rule. (4-4-13)

04. Federal Law Prohibits States From Taxing Sales of Air Transportation. See 49 U.S.C. Section 40116. For this reason, sales of intrastate transportation as described by Section 63-3612(i), Idaho Code, are not taxable in Idaho. (4-11-06)

05. Rentals and Leases of Aircraft. The rental or lease of an aircraft without operator is a sale subject to sales tax, other than as provided in Subsection 037.02 of this rule. See Rule 024 of these rules. (4-11-06)

06. Aerial Contracting Services. Businesses primarily engaged in the application of agricultural chemicals as described in Federal Aviation Regulation Part 137, or in activities involving the carrying of external loads as described in Federal Aviation Regulation Part 133, such as aerial logging, are performing aerial contracting services. Such businesses are not primarily engaged in the transportation of freight. (4-11-06)

a. Aircraft purchased, rented, or leased for aerial contracting are subject to tax. It makes no difference whether or not the service is provided to a government agency or a private individual or company. Sales or use tax also applies to the purchase of repair parts, oil, and other tangible personal property. (4-4-13)

b. When aircraft held for resale are used by the owner, who is an aircraft dealer, for aerial contracting services, a taxable use occurs. The use tax is due on a reasonable rental value for the time the aircraft is used to provide the service. (4-11-06)

07. Air Ambulance Service. Charges for the emergency transportation of sick or injured persons, including standby time, are not subject to sales tax. (7-1-94)

08. Flying Instructions. Flying instructions or lessons which may include solo flights are a service and the fees are not subject to sales tax. (7-1-94)

a. Aircraft purchased, rented, or leased to be used primarily for flying instruction are subject to sales or use tax. (7-1-94)

b. When aircraft held for resale are used by the aircraft dealer for flying instructions or lessons, a taxable use occurs. The use tax is due on a reasonable rental value for the time the aircraft is used to provide the service. (7-1-94)

09. Recreational Flights. Sales and purchase of aircraft used primarily for providing recreational flights are subject to sales or use tax. (4-11-06)

10. Aircraft Held for Resale. Aircraft purchased and held for resale become taxable when used for purposes other than demonstration or display in the regular course of business. (7-1-94)

a. Rentals of aircraft held for resale are taxable as provided by Subsection 037.05 of this rule. (7-1-93)

b. When an aircraft held for resale is used for a taxable purpose, the dealer owes tax on that use. The use tax applies to a reasonable rental value for the time the aircraft is used. (7-1-94)

c. Parts and oil purchased to repair or maintain aircraft held for resale are not subject to sales tax. The aircraft dealer must provide the supplier with a properly completed resale certificate. See Rule 128 of these rules. (2-18-02)

11. **Fuel.** The sale or purchase of fuels subject to motor fuels tax, or on which a motor fuels tax has been paid, pursuant to Chapter 24, Title 63, Idaho Code, is exempt from sales and use tax. (7-1-94)

Computer Sales tax

Tangible personal property is tax exempt. Computer software that is delivered electronically, remotely accessed, or delivered by the 'load and leave' method the vendor loads the software at the user's location but does not transfer any tangible personal property containing the software to the user, is exempt from Idaho sales and use tax.

Administrative Rules: 35.01.02.027 Computer Equipment, Software, and Data Services

IDAPA 35
TITLE 01
CHAPTER 02
SECTION 027

027. COMPUTER EQUIPMENT, SOFTWARE, AND DATA SERVICES (RULE 027).

Section 63-3616, Idaho Code

01. Definitions. For purposes of this rule, the following terms will have the following meanings: (4-11-15)

a. Canned Software. Canned software is prewritten software which is offered for sale, lease, or use to customers on an off-the-shelf basis with little or no modification at the time of the transaction beyond specifying the parameters needed to make the program run. Evidence of canned software includes the selling, licensing, or leasing of identical software more than once. Software may qualify as custom software for the original purchaser, licensee, or lessee, but become canned software when sold to others. Canned software includes program modules which are prewritten and later used as part of a larger computer program. (4-11-15)

b. Computer. A computer is a programmable machine or device having information processing capabilities and includes word, data, and math processing equipment, testing equipment, programmable microprocessors, and any other integrated circuit embedded in manufactured machinery or equipment. (4-11-15)

c. Computer Hardware. Computer hardware is the physical computer assembly and all peripherals, whether attached physically or remotely by any type of network, and includes all equipment, parts and supplies. (4-11-15)

d. Computer Program. A computer program, or simply a program, is a sequence of instructions written for the purpose of performing a specific operation in a computer. (4-11-15)

e. Computer Software. Computer software, or simply software, is defined as any of the following: (4-11-15)

i. A computer program; (4-11-15)

ii. Any part of a computer program; (4-11-15)

iii. Any sequence of instructions that operates automatic data processing equipment; or (4-11-15)

iv. Information stored in an electronic medium. (4-11-15)

f. Custom Software. Custom software is software designed and written by a vendor at the specific request of a client to meet a particular need. Custom software includes software which is created when a user purchases the services of a person to create software which is specialized to meet the user's particular needs. (4-11-15)

g. Digital Product. See definition for "Information Stored in an Electronic Medium" in Subsection 027.01.h. (4-11-15)

h. Information Stored in an Electronic Medium. Any electronic data file other than a computer program which can be contained on and accessed from storage media. The term includes audio and video files and any documents stored in an electronic format. For purposes of this rule, the term is interchangeable with "digital product." (4-11-15)

i. Load and Leave Method. A method of software delivery in which the vendor or an agent of the vendor loads software onto the user's storage media at the user's location but does not transfer storage media containing the software to the user. (4-11-15)

j. Remotely Accessed Computer Software. Computer software that a user accesses over the internet, over private or public networks, or through wireless media, and the user only has the right to use or access the software by means of a license, lease, subscription, service, or other agreement. (4-11-15)

k. Storage Media. Storage media include, but are not limited to, hard disks, optical media discs, diskettes, magnetic tape data storage, solid state drives, and other semiconductor memory chips used for nonvolatile storage of information readable by a computer. (4-11-15)

02. Computer Hardware. The sale or lease of computer hardware is a sale at retail. Sales tax is imposed based on the total purchase price, lease, or rental charges. See Rule 024 of these rules. (4-11-15)

03. Canned Software. When canned software is sold and delivered on storage media to the user and the storage media remains in the possession of the user, it is tangible personal property and the sale is taxable. If the storage media is sold along with other computer hardware, any canned software loaded on the storage media is tangible personal property the sale of which is taxable. If canned software is sold and delivered electronically or by the load and leave method, it is not tangible personal property and the sale is not taxable. If canned software is sold using a physical package but the package does not contain the canned software on storage media, it is not tangible personal property and the sale is not taxable. For example, if a printed key code is sold in a box that allows the user to download canned software and activate the canned software using the key code, the sale is not taxable. (4-11-15)

a. If canned software is loaded on a user's computer but has minimal or no functionality without connecting to the provider's servers over the internet, the sale of that canned software may still be taxable based upon the delivery method of the canned software as outlined in Subsection 027.03 of this rule. (4-11-15)

b. Special rules apply to digital music, digital books, digital videos, and digital games. See Subsections 027.06 and 027.07 of this rule. (3-25-16)

c. When a sale of canned software is taxable, tax applies to the entire amount charged to the customer for canned software. If the consideration consists of license fees, royalty fees, right to use fees or program design fees, whether for a period of minimum use or for extended periods, all fees are includable in the purchase price subject to tax. (4-11-15)

04. Remotely Accessed Computer Software. Remotely accessed computer software is not tangible personal property and charges to use or access such software are not subject to tax. (4-11-15)

05. Maintenance Contracts. Maintenance contracts sold in connection with the sale or lease of canned software generally provide that the purchaser will be entitled to receive periodic program enhancements and error correction, often referred to as upgrades, either on storage media or through remote telecommunications. The maintenance contract may also provide that the purchaser will be entitled to telephone or on-site support services. (3-6-00)

a. If the maintenance contract is required as a condition of the sale, lease, or rental of canned software, the gross sales price is subject to tax if the software to which the contract applies is subject to tax. Tax applies whether or not the charge for the maintenance contract is separately stated from the charge for software. In determining whether an agreement is optional or mandatory, the terms of the contract shall be controlling. (4-11-15)

b. If the maintenance contract is optional to the purchaser of canned software: (3-30-07)

i. Then only the portion of the contract fee representing upgrades is subject to sales tax if the fee for any maintenance agreement support services is separately stated and the upgrades are delivered on storage media; (4-11-15)

ii. If the fee for any maintenance agreement support services is not separately stated from the fee for upgrades and the upgrades are delivered on storage media, then fifty percent (50%) of the entire charge for the maintenance contract is subject to sales tax; (4-11-15)

iii. If the maintenance contract only provides upgrades delivered on storage media, and no maintenance agreement support services, then the entire sales price of the contract is taxable; (4-11-15)

iv. If the maintenance contract only provides support services, and the customer is not entitled to or does not receive any canned computer software upgrades or enhancements, then the sale of the contract is not taxable. (3-30-07)

c. If an optional software maintenance contract provides for software updates to be delivered electronically but also allows a customer to receive software updates on storage media, no portion of the contract is taxable unless the customer actually receives software updates on storage media. (4-11-15)

06. Digital Products. Digital music, digital books, digital videos, and digital games are tangible personal property regardless of the delivery or access method but only if the purchaser has a permanent right to use the digital music, digital books, digital videos, or digital games. Where the purchaser has a permanent right to use these digital products, the sale is taxable. Leases or rentals of these digital products are not taxable. (3-25-16)

a. Other than digital music, digital books, digital videos, or digital games, information stored in an electronic medium is tangible personal property only if it is transferred to the user on storage media that is retained by the user. (3-25-16)

b. If a digital game requires the internet for some or all of its functionality, the sale of that digital game is taxable if the purchaser has a permanent right to use the digital game. If a user pays a periodic subscription charge to play a digital game, the periodic subscription charge is not taxable. If a user pays a periodic subscription charge for a gaming service that enables certain functionality such as multiplayer capability in one or more digital games, the periodic charge is not taxable. (3-25-16)

07. Digital Subscriptions. Digital subscriptions consist of an agreement with a seller that grants a user the right to obtain or access digital products in a fixed quantity or for a fixed period of time. Digital subscriptions are not taxable. (3-25-16)

08. Reports Compiled by a Computer. The sale of statistical reports, graphs, diagrams, microfilm, microfiche, photorecordings, or any other information produced or compiled by a computer and sold or reproduced for sale in substantially the same form as it is produced is a sale of tangible personal property and is taxable if the final product is printed or delivered in an electronic format on storage media. If a report is compiled from information furnished by the same person to whom the finished report is sold, the report will be subject to tax unless the person selling the report performs some sort of service regarding the data or restates the data in substantially different form than that from which it was originally presented or delivers the report to the purchaser electronically. (3-25-16)

a. Example: An accountant uses a computer to prepare financial statements from a client's automated accounting records. No tax will apply since what is sought is the accountant's expertise and knowledge of generally accepted accounting principles. (7-1-93)

b. Example: A company sells mailing lists which are transferred to the user on storage media that remains in the possession of the user. The seller compiles all the mailing lists from a single data base. Since the same data base is used for all such mailing lists it is not custom software. Therefore, the sale is subject to tax. (4-11-15)

c. Example: An auto parts retailer hires a data processing firm to optically scan and record its parts book on a computer disk. No analysis or other service is performed regarding the data. Essentially, this is the same as making a copy of the parts books and the sale is, therefore, subject to tax. (7-1-93)

d. When additional copies of records, reports, manuals, tabulations, etc., are provided, tax applies to the charges made for the additional copies. Additional copies are all copies in excess of those produced simultaneously with the production of the original and on the same printer, where the copies are prepared by running the same program, by using multiple printers, by looping the program, by using different programs to produce the same output, or by other means. (7-1-93)

e. Charges for copies produced by means of photocopying, multilithing, or by other means are subject to tax. (7-1-93)

09. Online or Remote Data Storage. Charges to store data on storage media owned and controlled by another party is a nontaxable service. (4-11-15)

10. Training Services. Separately stated charges for training services are not subject to the tax, unless they are incidental services agreed to be rendered as a part of the sale of tangible personal property as provided by Rule 011 of these rules. (3-6-00)

a. When separate charges are made for training materials, such as books, manuals, or canned software, sales tax applies. (7-1-93)

b. When training materials are provided at no cost to the purchaser in conjunction with the sale of tangible personal property, the training materials are considered to be included in the sales price of the tangible personal property. (7-1-93)

c. When no tangible personal property, computer hardware or canned software, is sold and training materials are provided at no charge to the customer, the provider of the training is the consumer of the training materials and must pay sales tax or accrue and remit use tax. (3-6-00)

11. Custom Software. The transfer of title, possession, or use for a consideration of custom software is not subject to sales tax. Custom software is specified, designed, and created by a vendor at the specific request of a client to meet a particular need. Custom software includes software which is created when a user purchases the services of a person to create software which is specialized to meet the user's particular needs. The term includes those services that are represented by separately stated and identified charges for modification to existing canned software which are made to the special order of the customer, even though the sales, lease, or license of the existing program remains taxable. Examples of services that do not result in custom software include loading parameters to initialize program settings and arranging preprogrammed modules to form a complete program. (7-1-93)

a. Tax does not apply to the sale, license, or lease of custom software regardless of the form or means by which the program is transferred. The tax does not apply to the transfer of custom software or custom programming services performed in connection with the sale or lease of computer equipment if such charges are separately stated from the charges for the equipment. (3-6-00)

b. If the custom programming charges are not separately stated from the sale or lease of equipment, they will be considered taxable as part of the sale. (7-1-93)

c. Custom software includes a program prepared to the special order of a customer who will use the program to produce and sell or lease copies of the program. The sale of the program by the customer for whom the custom software was prepared will be a sale of canned software. (7-1-93)

Statute: 63-3616 Tangible Personal Property

TITLE 63
REVENUE AND TAXATION
CHAPTER 36
SALES TAX

63-3616. TANGIBLE PERSONAL PROPERTY. (a) The term "tangible personal property" means personal property which may be seen, weighed, measured, felt or touched, or which is in any other manner perceptible to the senses.

(b) The term "tangible personal property" includes any computer software except the following: custom computer programs; computer software that is delivered electronically; remotely accessed computer software; and computer software that is delivered by the load and leave method where the vendor or its agent loads the software at the user's location but does not transfer any tangible personal property containing the software to the user. As used in this subsection, the term "remotely accessed computer software" means computer software that a user accesses over the internet, over private or public networks, or through wireless media, where the user has only the right to use or access the software by means of a license, lease, subscription, service or other agreement. Notwithstanding the foregoing exclusions of certain types of computer software from the definition of tangible personal property, tangible personal property shall include computer software that constitutes digital music, digital books, digital videos and digital games when the purchaser has a permanent right to use such software and, regardless of the method of delivery or access. If the right to use digital music, digital books, digital videos or digital games is conditioned upon continued payment from the purchaser it is not a permanent right of use.

(i) As used in this subsection, the term "computer software" means any computer program, part of a program or any sequence of instructions for automatic data processing equipment or information stored in an electronic medium.

(ii) As used in this subsection, the term "custom computer program" means any computer software, as defined in this subsection, which is written or prepared exclusively for a customer and includes those services represented by separately stated charges for the modification of existing prewritten programs when the modifications are written or prepared exclusively for a customer. The term does not include a "canned" or prewritten program which is held or existing for general or repeated sale, lease or license, even if the program was initially developed on a custom basis or for in-house use. Modification to an existing prewritten program to meet the customer's needs is custom computer programming only to the extent of the modification, and only to the extent that the actual amount charged for the modification is separately stated on invoices, statements, and other billing documents supplied to the purchaser.

(c) The term "tangible personal property" does not include advertising space when sold to an advertiser or its agent by the publisher of the newspaper or the magazine in which the advertisement is displayed or circulated.

Buyers must have an Idaho seller's permit number unless they're out-of-state retailers with no Idaho business presence (e.g., physical location, representatives, employees, etc.).

An Idaho seller's permit number has nine digits, such as 000123456. You can validate a permit number by visiting tax.idaho.gov/validseller or contacting the Tax Commission.

INCOME TAX CREDIT

3% Investment Tax Credit

Tax Credit

Businesses that make qualifying new investments may earn an income tax credit. This credit can offset up to 50% of a company's state income tax liability and may be carried forward up to 14 years.

To qualify:

- Qualifying property is new or used depreciable property. Idaho adopted the definition of qualifying property found in Internal Revenue Code (IRC) Sections 46(c) and 48 in effect prior to 1986 for this credit.
- The depreciable life must be three years or more.
- Property not used in Idaho and vehicles under 8,000 pounds gross weights do not qualify.

Property used in a trade or business that does qualify includes:

1. Tangible personal property-machinery and equipment.
2. Other tangible property used as an integral part of manufacturing, production, extraction, furnishing, transportation, communications, utility services, or research facilities and bulk storage facilities used in connection with those businesses.
3. Elevators and escalators.
4. Single purpose agricultural or horticultural structures, such as a commercial greenhouse or a milking barn.
5. Certain qualified timber property.
6. Petroleum storage facilities.

Property that does not qualify includes:

1. Buildings and their structural components.
2. Property used primarily for lodging. This is an apartment house or other facility where sleeping accommodations are provided and rented. The rental period is normally more than 30 days. (Tangible personal property used in a facility that rents rooms for a period of less than 30 days does qualify.)
3. Property expensed under Section 179, IRC.
4. Property subject to 60-month amortization.
5. Used property:
 - a. not acquired by purchase; or
 - b. in excess of \$150,000; or
 - c. acquired from a related person. This includes a person acquiring property they used prior to the acquisition.
6. Property that is either non-depreciable or has a useful life of fewer than three years.
7. The portion of property that is for personal use.
8. Horses.

Qualified Investment Exemption:

- This exemption may be applied in lieu of the investment tax credit. A two-year exemption from property tax on qualified personal property is available only if a loss was incurred in the second preceding tax year in which the property is placed in service. The loss must have been computed without regard to any net operating loss carry over or carry back.

Administrative Rules: 35.01.01.710 Idaho Investment Tax Credit

IDAPA 35
TITLE 01
CHAPTER 01
SECTION 710

710. IDAHO INVESTMENT TAX CREDIT: IN GENERAL (RULE 710).

Section 63-3029B, Idaho Code

01. Credit Allowed. The investment tax credit allowed by Section 63-3029B, Idaho Code, applies to investments made during tax years beginning on and after January 1, 1982, that qualify pursuant to Sections 46(c), 47, and 48, Internal Revenue Code, as in effect prior to amendment by Public Law 101-508. Investments must also meet the requirements of Section 63-3029B, Idaho Code, and Rules 710 through 719 of these rules.

(5-8-09)

02. Limitations. The investment tax credit allowable in any taxable year will be limited by the following:

(3-20-14)

a. Tax liability.

(3-30-01)

i. For taxable years beginning on or after January 1, 2000, the credit claimed may not exceed fifty percent (50%) of the tax after credit for taxes paid another state.

(3-30-01)

ii. For taxable years beginning on or after January 1, 1995 and before January 1, 2000, the credit claimed may not exceed forty-five percent (45%) of the tax after credit for taxes paid another state.

(3-30-01)

b. Credit for qualifying new employees. If the credit for qualifying new employees is claimed in the current taxable year or carried forward to a future taxable year, the investment tax credit is limited by the provisions of Section 63-3029F, Idaho Code.

(3-30-01)

c. Unitary taxpayers. Limitations apply to each taxpayer according to its own tax liability. Each corporation in a unitary group is a separate taxpayer. See Rule 711 of these rules.

(3-30-01)

d. Nonrefundable credits. The investment tax credit is a nonrefundable credit. It is applied to the income tax liability in the priority order for nonrefundable credits described in Rule 799 of these rules.

(3-15-02)

e. Used Property Limitation. The term used property limitation shall mean the one hundred fifty thousand dollar (\$150,000) limitation imposed by Section 48, Internal Revenue Code of 1986 prior to November 5, 1990.

(4-4-13)

03. Carryovers.

(3-20-97)

a. Investment tax credit earned on investments made on or after January 1, 1990, but not claimed against tax in the year earned is eligible for a seven (7) year carryover. If a credit carryover from these years is available to be carried into taxable years beginning on or after January 1, 2000, the credit carryover is extended from seven (7) years to fourteen (14) years.

(3-30-01)

b. For example, a calendar year taxpayer earned investment tax credit in calendar year 1993. The taxpayer was unable to use all the credit in that year and in the subsequent carryover years. Carryover was remaining into the seventh and final carryover year, calendar year 2000. Since the taxpayer had eligible carryover going into a taxable year beginning on or after January 1, 2000, the carryover period changes from seven (7) years to fourteen (14) years. Assuming the carryover is available for the entire carryover period, and that there are no short period years, the last year that the carryover can be used will be calendar year 2007. If the seventh

carryover year was a taxable year beginning prior to January 1, 2000, the carryover period has expired and is not extended. (3-30-01)

c. Investment tax credit earned on investments made in taxable years beginning on or after January 1, 2000, but not claimed against tax in the year earned is eligible for a fourteen (14) year carryover. (3-30-01)

04. Motor Vehicle. Motor vehicle means a self-propelled vehicle that is registered or may be registered for highway use pursuant to the laws of Idaho. Gross vehicle weight is determined by the manufacturer's specified gross vehicle weight. (3-20-97)

05. Expensed Property. The cost of property that the taxpayer elects to expense pursuant to Section 179, Internal Revenue Code, is not a qualified investment. (3-30-01)

06. Bonus Depreciation. The cost of property that the taxpayer elects to deduct as bonus first-year depreciation pursuant to Section 168(k), Internal Revenue Code, is not a qualified investment when the bonus firstyear depreciation was also allowed in computing depreciation for Idaho. (3-20-14)

Statute: 63-3029B. Income Tax Credit for Capital Investment

From: <https://legislature.idaho.gov/statutesrules/idstat/Title63/T63CH30/SECT63-3029B/>

TITLE 63
REVENUE AND TAXATION
CHAPTER 30
INCOME TAX

63-3029B. INCOME TAX CREDIT FOR CAPITAL INVESTMENT. (1) At the election of the taxpayer there shall be allowed, subject to the applicable limitations provided herein as a credit against the income tax imposed by chapter 30, title 63, Idaho Code, an amount equal to the sum of:

- (a) The tax credit carryovers; and
- (b) The tax credit for the taxable year.

(2) The maximum allowable amount of the credit for the current taxable year shall be three percent (3%) of the amount of qualified investments made during the taxable year.

(3) As used in this section "qualified investment" means certain property which:

- (a) (i) Is eligible for the federal investment tax credit, as defined in sections 46(c) and 48 of the Internal Revenue Code subject to the limitations provided for certain regulated companies in section 46(f) of the Internal Revenue Code and is not a motor vehicle under eight thousand (8,000) pounds gross weight; or
- (ii) Is qualified broadband equipment as defined in section 63-3029I, Idaho Code; and

(b) Is acquired, constructed, reconstructed, erected or placed into service after December 31, 1981; and

(c) Has a situs in Idaho as determined under subsection (9) of this section.

(4) (a) For qualified investments placed in service in 2003 and thereafter, a taxpayer, other than a person whose rate of charge or rate of return, or both, is regulated or limited according to federal or state law, may elect, in lieu of the credit provided by this section, a two (2) year exemption from all taxes on personal property on the qualified investment. The exemption from personal property tax shall apply to the year the election is filed as provided in this section and the immediately following year. The election provided by this paragraph is available only to a taxpayer whose Idaho taxable income, before application of net operating losses carried back or forward, in the second preceding taxable year in which the investment is placed in service is negative.

(b) The election shall be made in the form prescribed by the state tax commission and shall include a specific description and location of all qualified investments placed into service and located in the jurisdiction of the assessing authority, a designation of the specific assets for which the exemption is claimed, and such other information as the state tax commission may require. The election must be made by including the election form with the listing of personal property required by section 63-302, Idaho Code, or, in the case of operating property assessed under chapter 4, title 63, Idaho Code, with the operator's statement required by section 63-404, Idaho Code. Once made the election is irrevocable. If no election is made, the election is not otherwise available. A copy of the election form must also be attached to the original income tax return due for the taxable year in which the claim was made.

(c) The state tax commission and the various county assessors are authorized to exchange information as necessary to properly coordinate the

exemption provided in this subsection. Information disclosed to county officials under this subsection may be used only to determine the validity or amount of a taxpayer's entitlement to the exemption provided in this section, and is not otherwise subject to public disclosure as provided in section [74-107](#), Idaho Code.

(d) In the event that an investment in regard to which the election under this subsection was made is determined by the state tax commission:

- (i) To not be a qualified investment, or
- (ii) To have ceased to qualify during the recapture period, or
- (iii) To be otherwise not qualified for the election,

the taxpayer shall be subject to recapture of the property tax benefit.

(e) The benefit to be recaptured in subsection (4)(d) of this section shall be computed in the manner required in subsection (7) of this section and such recapture amount shall be subject to assessment in the same manner as a deficiency in tax under this chapter. For purposes of calculating the recapture, the property tax benefit shall be:

(i) In the case of locally assessed property located in a single county or nonapportioned centrally assessed property, the market value of exempted property times the average property tax levy for that county in the year or years for which the exemption was claimed.

(ii) In the case of other centrally assessed property and property located in more than one (1) county, the market value of exempted property times the average urban property tax levy of the state as determined by the state tax commission in each of the years for which the exemption was claimed.

(f) In the event that a recapture of the exemption is required under this subsection (4), the person claiming the exemption shall report the event to the state tax commission in the manner the state tax commission may by rule require. The report shall be due no later than the due date of that person's income tax return under this chapter for the taxable year in which the event occurs. The recapture amount is due and payable with the report. Any amount of recapture not paid is a deficiency within the meaning of section [63-3044](#), Idaho Code.

(g) All moneys collected by the state tax commission pursuant to this subsection, which amounts are continuously appropriated for this purpose, shall be deposited with the state treasurer and placed in the state refund account, as provided by section [63-3067](#), Idaho Code, to be remitted to the county within which the property was located that was not a qualified investment or ceased to qualify during the recapture period. The county shall distribute this remittance to all appropriate taxing districts based on the proportion each appropriate taxing district's levy is to the total of all the levies of the taxing districts for the tax code area where the property was located for each year the exemption was granted. If any taxing district is dissolved or disincorporated, the proportionate share of the remittance to be distributed to that taxing district shall be deposited in the county current expense fund.

(h) For purposes of the limitation provided by section [63-802](#), Idaho Code, moneys received pursuant to this subsection shall be treated as property tax revenue by taxing districts.

(5) Notwithstanding the provisions of subsections (1) and (2) of this section, the amount of the credit allowed shall not exceed fifty percent (50%) of the tax liability of the taxpayer. The tax liability of the taxpayer shall be the tax after deducting the credit allowed by section [63-3029](#), Idaho Code.

(6) If the sum of credit carryovers from the credit allowed by subsection (2) of this section and the amount of credit for the taxable year from the credit allowed by subsection (2) of this section exceed the limitation imposed by

subsection (5) of this section for the current taxable year, the excess attributable to the current taxable year's credit shall be an investment credit carryover to the fourteen (14) succeeding taxable years so long as the qualified investment property for which the unused credit was granted otherwise remains a qualified investment as determined under subsection (3) of this section in each of the taxable years during the recapture period. In the case of a group of corporations filing a combined report under section 63-3027, Idaho Code, or sections 63-3027B through 63-3027E, Idaho Code, credit earned by one (1) member of the group but not used by that member may be used by another member of the group, subject to the provisions of subsection (5) of this section, instead of carried over. The entire amount of unused credit shall be carried forward to the earliest of the succeeding years, wherein the oldest available unused credit shall be used first. For a combined group of corporations, credit carried forward may be claimed by any member of the group unless the member who earned the credit is no longer included in the combined group.

(7) Any recapture of the credit allowed by subsection (2) of this section on property disposed of or ceasing to qualify, prior to the close of the recapture period, shall be determined according to the applicable recapture provisions of the Internal Revenue Code. In the case of a unitary group of corporations, the increase in tax due to the recapture of investment tax credit must be reported by the member of the group who earned the credit regardless of which member claimed the credit against tax.

(8) For the purpose of determining whether property placed in service is a "qualified investment" as defined in subsection (3) of this section, the provisions of section 49 of the Internal Revenue Code shall be disregarded. "Qualified investment" shall not include any amount for which a deduction is allowed under section 168(k) or section 179 of the Internal Revenue Code in computing Idaho taxable income.

(9) For purposes of this section, property has a situs in Idaho during a taxable year if it is used in Idaho at any time during the taxable year. Property not used in Idaho during a taxable year does not have a situs in Idaho in the taxable year during which the property is not used in Idaho or in any subsequent taxable year. The Idaho situs of property must be established by records maintained by the taxpayer which are created reasonably contemporaneously with the use of the property.

(10) In the case of property used both in and outside Idaho, the taxpayer, electing to claim the credit provided in this section, must elect to compute the qualified investment in property with a situs in Idaho for all such investments first qualifying during that year in one (1), but only one (1), of the following ways:

(a) The amount of each qualified investment in a specific asset shall be separately computed based on the percentage of the actual use of the property in Idaho by using a measure of the use, such as total miles or total machine hours, that most accurately reflects the beneficial use during the taxable year in which it is first acquired, constructed, reconstructed, erected or placed into service; provided, that the asset is placed in service more than ninety (90) days before the end of the taxable year. In the case of assets acquired, constructed, reconstructed, erected or placed into service within ninety (90) days prior to the end of the taxable year in which the investment first qualifies, the measure of the use of that asset within Idaho for that year shall be based upon the percentage of use in Idaho during the first ninety (90) days of use of the asset;

(b) The investment in qualified property used both inside and outside Idaho during the taxable year in which it is first acquired, constructed, reconstructed, erected or placed into service shall be multiplied by the percent of the investment that would be included in the numerator of the

Idaho property factor determined pursuant to section 63-3027, Idaho Code, for the same year.

(11) References to sections 46, 48 and 49 of the "Internal Revenue Code" mean those sections as they existed in the Internal Revenue Code of 1986 prior to November 5, 1990.

Administrative Rules: 35.01.01.750 Broadband Equipment Investment Credit

IDAPA 35
TITLE 01
CHAPTER 01
SECTION 750-753

750. BROADBAND EQUIPMENT INVESTMENT CREDIT: IN GENERAL (RULE 750).

Section 63-3029I, Idaho Code

01. Credit Allowed. The broadband equipment investment credit allowed by Section 63-3029I, Idaho Code, applies to investments made during taxable years beginning on and after January 1, 2001. The investment must also meet the requirements of Section 63-3029B, Idaho Code, and related rules as to what constitutes qualified investment. (4-6-05)

02. Limitations. The broadband equipment investment credit allowable in any taxable year will be limited as follows: (4-11-15)

a. The broadband equipment investment credit claimed during a taxable year may not exceed the lesser of: (3-15-02)

i. Seven hundred fifty thousand dollars (\$750,000); or (3-15-02)

ii. One hundred percent (100%) of the tax, after allowing all other income tax credits that may be claimed before the broadband equipment investment credit, regardless of whether this credit results from a carryover earned in prior years, the current year, or both. See Rule 799 of these rules for the priority order for nonrefundable credits. (3-15-02)

b. Credit for Qualifying New Employees. If the credit for qualifying new employees is claimed in the current taxable year or carried forward to a future taxable year, the broadband equipment investment credit is limited by the provisions of Section 63-3029F, Idaho Code. (3-15-02)

c. Unitary Taxpayers. Limitations apply to each taxpayer according to its own tax liability. Each corporation in a unitary group is a separate taxpayer. See Rule 711 of these rules. (3-15-02)

d. Transferred Credit. Limitations apply to each transferee as if the transferee had earned the credit. (3-15-02)

03. Carryovers. (3-15-02)

a. The carryover period for the broadband equipment investment credit is fourteen (14) years. (3-15-02)

i. The fourteen (14) year carryover period provided by section 63-3029I(7), Idaho Code, extends throughout the fourteen (14) taxable years following the year in which the equipment was installed. The fourteen (14) year carryover period begins to run regardless of whether the taxpayer has sought and received approval from the Idaho public utilities commission (PUC). (4-11-15)

ii. Once a taxpayer has received the approval order from the PUC, the broadband tax credit may be claimed or transferred. If the statute of limitations has expired for filing a return to claim the credit for the taxable year of the installation, the taxpayer cannot claim any credit for that taxable year, but must calculate how much of the credit the taxpayer could have used to determine the amount of credit available to carry forward pursuant to section 63-3029I(7), Idaho Code. (4-11-15)

iii. Example: A calendar year filer installed qualifying equipment on July 20, 2001. However, it was not until 2013 that the taxpayer sought and received the approval order from the PUC. The fourteen (14) year

carryover period already began to run based on the installation date and will expire at the end of the 2015 taxable year. On March 10, 2013 the taxpayer is preparing his tax returns and considering how much broadband credit is available and to which taxable years it could be applied to. The taxpayer can file an amended return to claim the credit starting with taxable year 2009 (prior years would be out of the statute of limitations for filing an amended return assuming all returns had been timely filed and no other special circumstances had held the period open). The taxpayer must look back to taxable year 2001 (the year of installation) to see how much credit the taxpayer could have used in each taxable year up to 2009 to determine how much credit carryover amount is still available pursuant to the carryover limitations of section 63-3029I(7), Idaho Code. The taxpayer must use up or transfer any unused credit before taxable year 2016; after taxable year 2015, the carry forward period will expire and any unused credit will no longer be available for the taxpayer to apply or transfer. (4-11-15)

b. See Rule 793 of these rules for the rules regarding the carryover of transferred credit. (3-15-02)

04. Taxpayers Entitled to the Credit. Rule 711 of these rules will apply to the broadband equipment investment credit except that limitations referenced in Subsection 711.01 of these rules will be those limitations as provided in Section 63-3029I, Idaho Code. (4-11-15)

05. Pass-Through Entities. The credit may be earned by a partnership, S corporation, estate, or trust and passed through to the partner, shareholder, or beneficiary. See Rule 785 of these rules for the method of attributing the credit, for pass-through entities paying tax, and the application of limitations on pass-through credits. (3-15-02)

751. (RESERVED)

752. BROADBAND EQUIPMENT INVESTMENT CREDIT: RECAPTURE (RULE 752).

Section 63-3029I, Idaho Code

01. In General. If a taxpayer is claiming or has claimed the broadband equipment investment credit for property sold or otherwise disposed of, or that ceases to qualify pursuant to Section 63-3029B, Idaho Code, prior to being held five (5) full years, a recomputation of the credit shall be made. See Rule 715 of these rules. (3-15-02)

02. Unitary Taxpayers. The corporation that earned the credit is responsible for the recapture or recomputation of the credit when the property ceases to qualify. (3-15-02)

03. Transferred Credit. The transferor is responsible for the recapture or recomputation of the credit when the property ceases to qualify. (3-15-02)

753. BROADBAND EQUIPMENT INVESTMENT CREDIT: RECORD-KEEPING REQUIREMENTS (RULE 753).

Section 63-3029I, Idaho Code

01. Information Required. Each taxpayer must retain and make available, on request, records for each item of property included in the computation of the broadband equipment investment credit claimed on an income tax return subject to examination. The records must include all of the following: (3-15-02)

a. The order from the Idaho Public Utilities Commission confirming that the installed equipment is qualified broadband equipment. (3-15-02)

b. A description of the property; (3-15-02)

c. The asset number assigned to the item of property, if applicable; (3-15-02)

d. The acquisition date and date placed in service; (3-15-02)

e. The basis of the property; and (3-15-02)

f. The retirement, disposition, or date transferred out of Idaho, or date no longer used in Idaho, if applicable. (3-15-02)

02. Accounting Records Subject to Examination. Accounting records that may need to be examined to document acquisition, disposition, location, and utilization of assets include the following: (3-15-02)

a. Source documents supporting the application to the Idaho Public Utilities Commission;(3-15-02)

b. Accounting documents that contain asset and account designations and descriptions. These documents include a chart of accounts, the accounting manual, controller's manual, or other documents containing this information; (3-15-02)

c. Asset location records including asset directories, asset registers, insurance records, property tax records, or similar asset inventory documents; (3-15-02)

d. Records verifying ownership including purchase contracts and cancelled checks; (3-15-02)

e. Invoices, shipping documents, and similar documents reflecting the transfer of assets in and out of Idaho; and (3-15-02)

f. A system that verifies that property on which the broadband equipment investment credit was claimed continues to maintain its status as Idaho qualifying property throughout the recapture period. (3-15-02)

03. Failure to Maintain Adequate Records. Failure to maintain any of the records required by this rule may result in the disallowance of the credit claimed. (3-15-02)

04. Unitary Taxpayers. Corporations claiming broadband equipment investment credit must provide a calculation of the credit earned and used by each member of the combined group. The schedule must clearly identify shared credit and the computation of any credit carryovers. (3-15-02)

05. Credit Transferred. A taxpayer that transfers the broadband equipment investment credit shall continue to be subject to the record-keeping requirements of this rule for as long as the credit may be carried over by the transferee or until further assessment or deficiency determinations are barred by a period of limitation, whichever is longer. (3-15-02)

TITLE 63
REVENUE AND TAXATION
CHAPTER 30
INCOME TAX

63-3029I. INCOME TAX CREDIT FOR INVESTMENT IN BROADBAND EQUIPMENT. (1) Subject to the limitations of this section, for taxable years beginning after January 1, 2001, there shall be allowed to a taxpayer a nonrefundable credit against taxes imposed by sections [63-3024](#), [63-3025](#) and [63-3025A](#), Idaho Code, for qualified expenditures in qualified broadband equipment in Idaho.

(2) The credit permitted in subsection (1) of this section shall be three percent (3%) of the qualified investment in qualified broadband equipment in Idaho and shall be in addition to the credit for capital investment permitted by section [63-3029B](#), Idaho Code.

(3) As used in this section the term:

(a) "Qualified investment" shall be as defined in section [63-3029B](#), Idaho Code.

(b) "Qualified broadband equipment" means equipment that qualifies for the credit for capital investment permitted by section [63-3029B](#), Idaho Code, and is capable of transmitting signals at a rate of at least two hundred thousand (200,000) bits per second to a subscriber and at least one hundred twenty-five thousand (125,000) bits per second from a subscriber, and

(i) In the case of a telecommunications carrier, such qualifying equipment shall be necessary to the provision of broadband service and an integral part of a broadband network. "Telecommunications carrier" has the meaning given such term by section 47 U.S.C. 153 of the communications act of 1934, as amended, but does not include a commercial mobile service provider.

(ii) In the case of a commercial mobile service carrier, such qualifying equipment shall extend from the subscriber side of the mobile telecommunications switching office to a transmitting/receiving antenna, including such antenna, on the outside of the structure in which the subscriber is located. "Commercial mobile service carrier" means any person authorized to provide commercial mobile radio service to subscribers as defined in section 20.3 of [title 47](#), Code of Federal Regulations ([10-1-99](#)ed.), as amended.

(iii) In the case of a cable or open video system operator, such qualifying equipment shall extend from the subscriber's side of the headend to the outside of the structure in which the subscriber is located. The terms "cable operator" and "open video system operator" have the meanings given such terms by sections 602(5) and 653, respectively, of the communications act of 1934, as amended.

(iv) In the case of a satellite carrier or a wireless carrier other than listed above, such qualifying equipment is only that equipment that extends from a transmitting/receiving antenna, including such antenna, which transmits and receives signals to or from multiple subscribers to a transmitting/receiving antenna on the outside of the structure in which the subscriber is located. "Satellite carrier" means any person using the facilities of a satellite or satellite services licensed by the federal communications commission and operating a fixed-satellite service or direct broadcast satellite services to provide point-to-multipoint distribution of signals.

"Other wireless carrier" means any person, other than a telecommunications carrier, commercial mobile service carrier, cable operator, open video operator, or satellite carrier, providing broadband services to subscribers through the radio transmission of energy.

(v) In the case of packet switching equipment, such packet equipment installed in connection with other qualifying equipment listed in subsections (3)(b)(i) through (3)(b)(iv) of this section, provided it is the last in a series of equipment that transmits signals to a subscriber or the first in a series of equipment that transmits signals from a subscriber. "Packet switching" means controlling or routing the path of a digital transmission signal which is assembled into packets or cells.

(vi) In the case of multiplexing and demultiplexing equipment, such equipment only to the extent that it is deployed in connection with providing broadband services in locations between packet switching equipment and the structure in which the subscriber is located. "Multiplexing" means the transmission of two (2) or more signals over a communications circuit without regard to the communications technology.

(vii) Any property not primarily used to provide services in Idaho to public subscribers is not qualified broadband equipment.

(4) No equipment described in subsections (3)(b)(i) through (3)(b)(vi) of this section shall qualify for the credit provided in subsection (1) of this section until the taxpayer applies to and obtains from the Idaho public utilities commission an order confirming that the installed equipment is qualified broadband equipment. Applications submitted to the commission shall be governed by the commission's rules of procedure. The commission may issue procedural orders necessary to implement this section.

(5) The credit allowed by subsection (1) of this section together with any credits carried forward under subsection (7) of this section shall not, in any one (1) taxable year, exceed the lesser of:

(a) The amount of tax due under sections [63-3024](#), [63-3025](#) and [63-3025A](#), Idaho Code, after allowance for all other credits permitted by this chapter; or

(b) Seven hundred fifty thousand dollars (\$750,000).

When credits earned in more than one (1) taxable year are available, the oldest credits shall be applied first.

(6) In the case of a group of corporations filing a combined report under subsection (t) of section [63-3027](#), Idaho Code, credit earned by one (1) member of the group but not used by that member may be used by another member of the group, subject to the provisions of subsection (7) of this section, instead of carried over. For a combined group of corporations, credit carried forward may be claimed by any member of the group unless the member who earned the credit is no longer included in the combined group.

(7) If the credit allowed by subsection (1) of this section exceeds the limitation under subsection (5) of this section, the excess amount may be carried forward for a period that does not exceed the next fourteen (14) taxable years.

(8) In the event that qualified broadband equipment upon which the credit allowed by this section has been used ceases to qualify for the credit allowed by section [63-3029B](#), Idaho Code, or is subject to recapture of that credit, the recapture of credit under this section shall be in the same proportion and subject to the same provisions as the amount of credit required to be recaptured under section [63-3029B](#), Idaho Code.

(9) (a) Subject to the requirements of this subsection, a taxpayer who earns and is entitled to the credit or to an unused portion of the credit

allowed by this section may transfer all or a portion of the unused credit to:

(i) Another taxpayer required to file a return under this chapter;
or

(ii) To an intermediary for its use or for resale to a taxpayer required to file a return under this chapter.

In the event of either such a transfer, the transferee may claim the credit on the transferee's income tax return originally filed during the calendar year in which the transfer takes place and, in the case of carryover of the credit, on the transferee's returns for the number of years of carryover available to the transferor at the time of the transfer unless earlier exhausted.

(b) Before completing a transfer under this subsection, the transferor shall notify the state tax commission of its intention to transfer the credit and the identity of the transferee. The state tax commission shall provide the transferor with a written statement of the amount of credit available under this section as then appearing in the commission's records and the number of years the credit may be carried over. The transferee shall attach a copy of the statement to any return in regard to which the transferred credit is claimed.

(c) In the event that after the transfer the state tax commission determines that the amount of credit properly available under this section is less than the amount claimed by the transferor of the credit or that the credit is subject to recapture, the commission shall assess the amount of overstated or recaptured credit as taxes due from the transferor and not the transferee. The assessment shall be made in the manner provided for a deficiency in taxes under this chapter.

(10) In addition to other needed rules, the state tax commission may promulgate rules prescribing, in the case of S corporations, partnerships, trusts or estates, a method of attributing the credit under this section to the shareholders, partners or beneficiaries in proportion to their share of the income from the S corporation, partnership, trust or estate.

Administrative Rules: 35.01.01.105-106 Adjustments to Taxable Income

IDAPA 35
TITLE 01
CHAPTER 01
SECTION 105-106

105. ADJUSTMENTS TO TAXABLE INCOME -- ADDITIONS REQUIRED OF ALL TAXPAYERS (RULE 105).

Section 63-3022, Idaho Code. The following items must be added by all taxpayers in computing Idaho taxable income. (2-27-12)

01. State and Local Income Taxes. As provided in Section 63-3022(a), Idaho Code, state and local income taxes that are measured by net income and were deducted in computing taxable income must be added. This includes taxes paid to states other than Idaho and their political subdivisions, and amounts paid by an S corporation on capital gains, built-in gains, and excess net passive income. (3-20-14)

02. Net Operating Loss Deduction. As provided in Section 63-3022(b), Idaho Code, the amount of the net operating loss deduction included in taxable income must be added. (2-27-12)

03. Capital Loss or Passive Loss Carryover Deduction. As provided in Section 63-3022(i), Idaho Code: (3-20-14)

a. A corporation must add a capital loss or passive loss that was deducted in computing taxable income if the loss occurred during a taxable year when the corporation did not transact business in Idaho. However, a capital loss is not required to be added back where the corporation was part of a unitary group and at least one (1) member of the group was taxable by Idaho for the taxable year in which the loss was incurred. (3-20-14)

b. An individual must add a capital loss or passive loss that was deducted in computing taxable income if the loss was incurred in an activity not taxable by Idaho at the time it was incurred. (4-4-13)

04. Interest and Dividend Income Exempt From Federal Taxation. As provided in Section 63-3022M, Idaho Code, certain interest and dividend income that is exempt from federal income tax must be added. For example, interest income from state and local bonds that is exempt from federal income tax pursuant to Section 103, Internal Revenue Code, must be added. (2-27-12)

a. Interest from bonds issued by the state of Idaho or its political subdivisions is exempt from Idaho income tax and, therefore, is not required to be added to taxable income. (3-20-97)

b. If a taxpayer has both Idaho and non-Idaho state and municipal interest income, expenses not allowed pursuant to Sections 265 and 291, Internal Revenue Code, must be prorated between the Idaho and non-Idaho interest income as provided in Subsections 105.04.b.i. and 105.04.b.ii. The addition to taxable income required for non-Idaho state and municipal interest income must be offset by the expenses prorated to that interest income. The allowable offset may not exceed the reportable amount of interest income. An unused offset may not be carried back or carried over. A schedule showing the interest and related offsets must be attached to the return. (2-27-12)

i. Expenses prorated to Idaho state and municipal interest income are based on the ratio of Idaho state and municipal interest income to total state and municipal interest income. (2-27-12)

ii. Expenses prorated to non-Idaho state and municipal interest income are based on the ratio of non-Idaho state and municipal interest income to total state and municipal interest income. (2-27-12)

05. Interest Expense Attributable to Tax-Exempt Interest Income. As provided by Section 63-3022M, Idaho Code, a taxpayer must add interest expense on indebtedness incurred to purchase or carry certain

obligations that produce tax-exempt interest income. Because this addition serves to offset the tax-exempt interest income, it is often referred to as an interest expense offset related to tax-exempt interest income. See Rule 115 of these rules for the computation of the interest expense offset related to tax-exempt interest.

(2-27-12)

06. Special First-Year Depreciation Allowance. As provided by Section 63-3022O, Idaho Code, if a taxpayer claims the special first-year depreciation allowance on property acquired before 2008 or after 2009 pursuant to Section 168(k), Internal Revenue Code, the adjusted basis of that property and the depreciation deduction allowed for Idaho income tax purposes must be computed without regard to the special first-year depreciation allowance. The amount of depreciation computed for federal income tax purposes that exceeds the amount of depreciation computed for Idaho income tax purposes must be added. The adjustments required by this subsection do not apply to property acquired after 2007 or before 2010.

(2-27-12)

106. ADJUSTMENTS TO TAXABLE INCOME -- ADDITIONS REQUIRED ONLY OF CORPORATIONS (RULE 106).

Section 63-3022, Idaho Code. As provided in Section 63-3022(d), Idaho Code, add the federal dividends received deduction subtracted in computing taxable income.

TITLE 63
REVENUE AND TAXATION
CHAPTER 30
INCOME TAX

63-3022. ADJUSTMENTS TO TAXABLE INCOME. The additions and subtractions set forth in this section, and in sections [63-3022A](#) through [63-3022U](#), Idaho Code, are to be applied to the extent allowed in computing Idaho taxable income:

(a) Add any state and local taxes, as defined in section 164 of the Internal Revenue Code that are measured by net income, or for which a credit is allowable under section [63-3029](#), Idaho Code, and paid or accrued during the taxable year adjusted for state or local tax refunds used in arriving at taxable income.

(b) Add the net operating loss deduction used in arriving at taxable income.

(c) (1) A net operating loss for any taxable year commencing on and after January 1, 2000, but before January 1, 2013, shall be a net operating loss carryback not to exceed a total of one hundred thousand dollars (\$100,000) to the two (2) immediately preceding taxable years. At the election of the taxpayer, the two (2) year carryback may be forgone and the loss subtracted from income received in taxable years arising in the next twenty (20) years succeeding the taxable year in which the loss arises in order until exhausted.

(2) A net operating loss for any taxable year commencing on or after January 1, 2013, shall be a net operating loss carryback not to exceed a total of one hundred thousand dollars (\$100,000) to the two (2) immediately preceding taxable years only if an amended return carrying the loss back is filed within one (1) year of the end of the taxable year of the net operating loss that results in such carryback.

(3) Any portion of the net operating loss not subtracted from income in the two (2) preceding years may be subtracted from income in the next twenty (20) years succeeding the taxable year in which the loss arises in order until exhausted. The sum of the deductions may not exceed the amount of the net operating loss deduction incurred. The carryback shall be limited to a total of fifty thousand dollars (\$50,000) in the case of an individual filing as married filing separate in the year of the loss.

(4) Net operating losses incurred by a corporation during a year in which such corporation did not transact business in Idaho or was not included in a group of corporations combined under subsection (t) of section [63-3027](#), Idaho Code, may not be subtracted. However, if at least one (1) corporation within a group of corporations combined under subsection (t) of section [63-3027](#), Idaho Code, was transacting business in Idaho during the taxable year in which the loss was incurred, then the net operating loss may be subtracted. Net operating losses incurred by a person, other than a corporation, in activities not taxable by Idaho may not be subtracted.

(5) The term "income" as used in this subsection means Idaho taxable income as defined in this chapter as modified by section [63-3021](#)(b)(2), (3) and (4), Idaho Code.

(d) In the case of a corporation, add the amount deducted under the provisions of sections 243(a) and (c), 244, 245, 245A, 246A, 250 and 965 of the Internal Revenue Code (relating to dividends received by corporations and other special deductions) as limited by section 246(b)(1) of said code.

(e) In the case of a corporation, subtract an amount determined under section 78 of the Internal Revenue Code to be taxable as dividends.

(f) Subtract the amount of any income received or accrued during the taxable year which is exempt from taxation by this state, under the provisions of any other law of this state or a law of the United States, if not previously subtracted in arriving at taxable income.

(g) For the purpose of determining the Idaho taxable income of the beneficiary of a trust or of an estate:

(1) Distributable net income as defined for federal tax purposes shall be corrected for the other adjustments required by this section.

(2) Net operating losses attributable to a beneficiary of a trust or estate under section 642 of the Internal Revenue Code shall be a deduction for the beneficiary to the extent that income from the trust or estate would be attributable to this state under the provisions of this chapter.

(h) In the case of an individual who is on active duty as a full-time officer, enlistee or draftee, with the armed forces of the United States, which full-time duty is or will be continuous and uninterrupted for one hundred twenty (120) consecutive days or more, deduct compensation paid by the armed forces of the United States for services performed outside this state. The deduction is allowed only to the extent such income is included in taxable income.

(i) In the case of a corporation, including any corporation included in a group of corporations combined under subsection (t) of section 63-3027, Idaho Code, add any capital loss or passive loss deducted which loss was incurred during any year in which such corporation did not transact business in Idaho. However, do not add any capital loss deducted if a corporation, including any corporation in a group of corporations combined under subsection (t) of section 63-3027, Idaho Code, was transacting business in Idaho during the taxable year in which the loss was incurred. In the case of persons other than corporations, add any capital loss or passive loss deducted which was incurred in activities not taxable by Idaho at the time such loss was incurred. In computing the income taxable to an S corporation or partnership under this section, deduction shall not be allowed for a carryover or carryback of a net operating loss provided for in subsection (c) of this section, a passive loss or a capital loss provided for in section 1212 of the Internal Revenue Code.

(j) In the case of an individual, there shall be allowed as a deduction from gross income either paragraph (1) or (2) of this subsection at the option of the taxpayer:

(1) The standard deduction as defined in section 63 of the Internal Revenue Code.

(2) Itemized deductions as defined in section 63 of the Internal Revenue Code except state or local taxes measured by net income and general sales taxes as either is defined in section 164 of the Internal Revenue Code.

(k) Add the taxable amount of any lump sum distribution excluded from gross income for federal income tax purposes under the ten (10) year averaging method. The taxable amount will include the ordinary income portion and the amount eligible for the capital gain election.

(l) Deduct any amounts included in gross income under the provisions of section 86 of the Internal Revenue Code relating to certain social security and railroad benefits.

(m) In the case of a self-employed individual, deduct the actual cost of premiums paid to secure worker's compensation insurance for coverage in Idaho, if such cost has not been deducted in arriving at taxable income.

(n) In the case of an individual for any tax period ending on or prior to December 31, 2016, deduct the amount contributed to a college savings program but not more than four thousand dollars (\$4,000) per tax year. In the case of an individual and for any tax period starting on or after January 1, 2017, deduct

the amount contributed to a college savings program, but not more than six thousand dollars (\$6,000) per tax year. For those married and filing jointly, deduct the amount contributed to a college savings program, but not more than twice of that allowed for an individual. To be qualified for this deduction, the contribution must be made during the taxable year and made to an Idaho college savings program account as described in [chapter 54, title 33](#), Idaho Code.

(o) In the case of an individual, add the amount of a nonqualified withdrawal from an individual trust account or savings account established pursuant to [chapter 54, title 33](#), Idaho Code, less any amount of such nonqualified withdrawal included in the individual's federal gross income pursuant to section 529 of the Internal Revenue Code. The addition provided in this subsection is limited to contributions previously exempt from Idaho state income tax and earnings generated from the program as long as the earnings are not already included in federal adjusted gross income.

(p) In the case of an individual, add the amount of a withdrawal from an individual trust account or savings account established pursuant to [chapter 54, title 33](#), Idaho Code, transferred to a qualified tuition program, as defined in section 529 of the Internal Revenue Code, that is operated by a state other than Idaho or to a qualified ABLE program as defined in section 529A of the Internal Revenue Code. The addition provided in this subsection is limited to the amount of the contributions to the Idaho individual trust account or savings account by the account owner that was deducted on the account owner's Idaho income tax return for the year of the transfer and the prior taxable year.

Administrative Rules: 35.01.01.720-723 Credit for Idaho Research Activities

IDAPA 35
TITLE 01
CHAPTER 01
SECTION 720-723

720. CREDIT FOR IDAHO RESEARCH ACTIVITIES: IN GENERAL (RULE 720).

Section 63-3029G, Idaho Code

01. Definitions. The Idaho credit is computed using the same definitions of qualified research expenses, qualified research, basic research payments, and basic research as are found in Section 41, Internal Revenue Code, except only the amounts related to research conducted in Idaho qualify for the Idaho credit. If an expense does not qualify for the federal credit under Section 41, Internal Revenue Code, it will not qualify for purposes of the Idaho credit. (4-7-11)

02. Limitations. The credit for Idaho research activities allowable in any taxable year is limited as follows: (4-7-11)

a. Tax Liability. The total amount of any credit for Idaho research activities claimed during a taxable year may not exceed one hundred percent (100%) of the tax, after allowing all other income tax credits that may be claimed before the credit for Idaho research activities, regardless of whether the credit for Idaho research activities results from a carryover earned in prior years, the current year, or both. See Rule 799 of these rules for the priority order for nonrefundable credits. (3-15-02)

b. Credit for Qualifying New Employees. If the credit for qualifying new employees is claimed in the current taxable year or carried forward to a future taxable year, the credit for Idaho research activities is limited by the provisions of Section 63-3029F, Idaho Code. (3-15-02)

c. Unitary Taxpayers. Limitations apply to each taxpayer according to its own tax liability. Each corporation in a unitary group is a separate taxpayer. See Rule 711 of these rules. (3-15-02)

03. Carryovers. The carryover period for the credit for Idaho research activities is fourteen (14) years. (3-15-02)

04. Pass-Through Entities. The credit may be earned by a partnership, S corporation, estate, or trust and passed through to the partner, shareholder, or beneficiary. See Rule 785 of these rules for the method of attributing the credit, for pass-through entities paying tax, and the application of limitations on pass-through credits. (3-15-02)

05. Short Taxable Year Calculations. Short taxable year calculations provided in Section 41, Internal Revenue Code, and related regulations are used to compute the Idaho credit if the taxpayer must use short taxable year calculations for purposes of computing the federal credit. (4-7-11)

721. CREDIT FOR IDAHO RESEARCH ACTIVITIES: ELECTIONS (RULE 721).

Section 63-3029G, Idaho Code

01. Election to Be Treated as a Start-Up Company. Regardless of whether a taxpayer qualifies as a start-up company for purposes of the federal credit for increasing research activities under Section 41, Internal Revenue Code, a taxpayer may elect to be treated as a start-up company for the credit for Idaho research activities. (3-15-02)

a. The election once made is irrevocable. (3-15-02)

b. The election is made by checking the appropriate box on Form 67. (4-7-11)

c. A taxpayer who makes the election under Section 63-3029G, Idaho Code, to be treated as a start-up company must use the fixed-base percentage that would be used by the taxpayer if the taxpayer had qualified as a start-up company for purposes of the federal credit under Section 41, Internal Revenue Code. For example, if the taxpayer's fiscal year beginning in 2001 is the 8th such taxable year beginning after December 31, 1993 in which the taxpayer had Idaho qualified research expenses, the fixed-base percentage is one-half (1/2) of the percentage that the aggregate qualified research expenses of the taxpayer for the 5th, 6th, and 7th such taxable years is of the aggregate gross receipts of the taxpayer for such years. (4-7-11)

02. Unitary Sharing. A corporation included as a member of a unitary group may elect to share the credit for Idaho research activities it earns but does not use with other members of the unitary group. Before the corporation may share the credit, it must claim the credit for Idaho research activities to the extent allowable against its tax liability. The credit available to be shared is the amount of credit carryover and credit earned for the taxable year that exceeds the limitation provided in Section 63-3029G(3), Idaho Code, or Paragraph 720.02.b. of these rules, whichever is applicable. The limitation is applied against the tax computed for the corporation that claims the credit. Credit shared with another member of the unitary group reduces the carryforward. (3-15-02)

722. (RESERVED)

723. CREDIT FOR IDAHO RESEARCH ACTIVITIES: RECORD-KEEPING REQUIREMENTS (RULE 723).

Section 63-3029G, Idaho Code

01. Information Required. Each taxpayer must retain and make available, on request, records for each item included in the computation of the credit for Idaho research activities claimed on an Idaho income tax return. The records must include all of the following: (3-15-02)

a. Verification that the research was conducted in Idaho; (3-15-02)

b. Verification that wages included in the computation were for qualified service performed by an employee in Idaho; (3-15-02)

c. Verification that supplies included in the computation were used for research conducted in Idaho; (3-15-02)

d. Verification that contract research expenses were for research conducted in Idaho; (3-15-02)

e. Verification that the research activities meet the definition of qualified research; and (3-15-02)

f. Verification that the amounts included in the Idaho computation are includable in the computation of the federal credit allowed by Section 41, Internal Revenue Code. (3-15-02)

02. Failure to Maintain Adequate Records. Failure to maintain any of the records required by this rule may result in the disallowance of the credit claimed. (3-15-02)

03. Unitary Taxpayers. Corporations claiming the credit for Idaho research activities must provide a calculation of the credit earned and used by each member of the combined group. The schedule must clearly identify shared credit and the computation of any credit carryovers. (3-15-02)

TITLE 63
REVENUE AND TAXATION
CHAPTER 30
INCOME TAX

63-3029G. CREDITS FOR RESEARCH ACTIVITIES CONDUCTED IN THIS STATE – CARRY FORWARD.

(1) (a) Subject to the limitations of this section, there shall be allowed to a taxpayer a nonrefundable credit against taxes imposed by sections [63-3024](#), [63-3025](#) and [63-3025A](#), Idaho Code, for increasing research activities in Idaho.

(b) The credit allowed by subsection (1)(a) of this section shall be the sum of:

(i) Five percent (5%) of the excess of qualified research expenses for research conducted in Idaho over the base amount; and

(ii) Five percent (5%) basic research payments allowable under subsection (e) of section 41 of the Internal Revenue Code for basic research conducted in Idaho.

(c) The credit allowed by subsection (1)(a) of this section shall be computed without regard to the calculation of the alternative incremental credit provided for in section 41(c)(4) of the Internal Revenue Code or the alternative simplified credit provided for in section 41(c)(5) of the Internal Revenue Code.

(2) As used in this section:

(a) The terms "qualified research expenses," "qualified research," "basic research payments" and "basic research" shall be as defined in section 41 of the Internal Revenue Code except that the research must be conducted in Idaho.

(b) The term "base amount" shall mean an amount calculated as provided in sections 41(c) and 41(h) of the Internal Revenue Code, except that:

(i) A taxpayer's gross receipts include only those gross receipts attributable to sources within this state as provided in subsections (q) and (r) of section [63-3027](#), Idaho Code; and

(ii) Notwithstanding section 41(c) of the Internal Revenue Code, for purposes of calculating the base amount, a taxpayer:

(A) May elect to be treated as a start-up company as provided in section 41(c)(3)(B) of the Internal Revenue Code, regardless of whether the taxpayer meets the requirements of section 41(c)(3)(B)(i)(I) or (II) of the Internal Revenue Code; and

(B) May not revoke an election to be treated as a start-up company.

(3) The credit allowed by subsection (1)(a) of this section together with any credits carried forward under subsection (5) of this section shall not exceed the amount of tax due under sections [63-3024](#), [63-3025](#) and [63-3025A](#), Idaho Code, after allowance for all other credits permitted by this chapter. When credits earned in more than one (1) taxable year are available, the oldest credits shall be applied first.

(4) In the case of a group of corporations filing a combined report under subsection (t) of section [63-3027](#), Idaho Code, credit earned by one (1) member of the group but not used by that member may be used by another member of the group. For a combined group of corporations, any member of the group may claim

credit carried forward unless the member who earned the credit is no longer included in the combined group.

(5) The credit allowed by subsection (1)(a) of this section shall be claimed for the taxable year during which the taxpayer qualifies for the credit. If the credit exceeds the limitation under subsection (3) of this section, the excess amount may be carried forward for a period that does not exceed the next fourteen (14) taxable years.

(6) In addition to other needed rules, the state tax commission may promulgate rules prescribing, in the case of S corporations, partnerships, trusts or estates, a method of attributing the credit under this section to the shareholders, partners or beneficiaries in proportion to their share of the income from the S corporation, partnership, trust or estate.

QUALIFYING DEPRECIABLE PROPERTY

Idaho generally follows the definition of qualified property found in the Internal Revenue Code (IRC) Sections 46 and 48 as in effect prior to 1986. The property must have a useful life of three years or more and be property for which you are allowed the deduction for depreciation or amortization instead of depreciation. Qualifying property includes the following property used in a trade or business:

- Tangible personal property - machinery and equipment
- Other tangible property - property used as an integral part of manufacturing, production, extraction; or furnishing transportation, communications, or utility services; or research facilities and bulk storage facilities used in connection with those businesses
- Elevators and escalators
- Single purpose agricultural or horticultural structures
- Qualified timber property
- Petroleum storage facilities
- Qualified broadband equipment as approved by the Idaho Public Utilities Commission

NONQUALIFYING PROPERTY

Property that does not qualify includes:

- Buildings and their structural components
- Property used in lodging facilities that rent 50% or more of their lodging units for periods of 30 days or longer, such as apartment houses or rental homes
- The cost of property expensed under IRC Section 179
- Property subject to 60-month amortization
- Used property not acquired by purchase
- The portion of property used for personal use
- Used property in excess of \$150,000
- Horses
- Property not used in Idaho
- Vehicles under 8,000 pounds gross vehicle weight (GVW)

Instructions for Idaho Form 49

GENERAL INSTRUCTIONS

Form 49 is used to calculate the investment tax credit (ITC) earned or allowed. Each member of a unitary group of corporations that earns or is allowed the credit must complete a separate Form 49.

Property Used Both In and Outside Idaho

If property is used both in and outside Idaho, compute the qualified investment for all such property using one of the following methods:

1. **Percentage-of-Use Method** - Multiply the investment in each asset by a fraction where Idaho use is the numerator and total use is the denominator. Usage can be measured by machine hours, mileage, or any other method that accurately reflects the usage.
2. **Property Factor Numerator Method** - Use the amount correctly included in the Idaho property numerator for each asset.

The amount computed in method #2 will generally be the same as that computed in method #1 unless your business uses the Multistate Tax Commission special industry regulations to compute its factors.

Carryover Periods

Compute the ITC carryover on Form 49C.

- For property acquired after 1989 but before tax years beginning in 2000, the credit carryover is limited to seven tax years unless the credit hasn't been carried over seven tax years before 2000. If the credit has been carried forward less than seven tax years, and is eligible for carryover to tax years beginning on or after 2000, the carryover period is limited to 14 tax years.
- For credit earned in tax years beginning on or after January 1, 2000, the credit carryover is limited to 14 tax years.

For purposes of the carryover period, a short tax year counts as one tax year.

Election to Claim Two-Year Property Tax Exemption and Forgo Investment Tax Credit

If you placed personal property in service that qualifies for the ITC, you may elect to exempt this property from your property tax. You aren't eligible for the election if your rate of charge or rate of return is regulated or limited by federal or state law. The exemption from the property tax is for two years. After the two years, you must pay any applicable property tax. You can't claim the ITC for any property that you elect to exempt from property tax.

The election is available if you had negative Idaho taxable income in the second preceding tax year from the tax year in which the property was placed in service. Negative Idaho taxable income must have been computed without regard to any carryover or carryback of net operating losses.

The election must be made on Form 49E and filed with the operator's statement or personal property declaration. A copy of the election form must be included with the original income tax return(s) for the tax year(s) in which the property was placed in service.

Biofuel Infrastructure Investment Tax Credit

If you placed biofuel infrastructure in service during the tax year and are claiming the biofuel infrastructure investment tax credit, you can't claim the ITC on the same property.

Recapture

You must compute recapture if you sell or otherwise dispose of the property or it ceases to qualify for the ITC before it has been in service for five full years. File Form 49R if you claimed the ITC. File Form 49ER if you claimed the property tax exemption.

SPECIFIC INSTRUCTIONS

Instructions are for lines not fully explained on the form.

PART I - CREDIT AVAILABLE SUBJECT TO LIMITATION

Line 1a. Include a list of all property you acquired and placed in service during the tax year that qualifies for the ITC. The list should identify each item of property and its location, your basis in the item, whether the item is new or used, and the date placed in service. The basis of qualified property is the Idaho adjusted basis computed without regard to bonus depreciation. Don't include any property on which you're claiming the biofuel infrastructure investment tax credit, or any property you're expensing under IRC Section 179.

Line 1b. Enter the amount of qualified investments for which you claimed the property tax exemption. This exemption is allowed instead of earning the ITC. Include applicable Form(s) 49E.

Line 3. Include a list of all ITC that is being passed through by S corporations, partnerships, trusts, or estates in which you have an interest. This amount is reported on Form ID K-1, Part D, line 1. The list should identify each entity by name, EIN, and the amount of ITC that is being passed through.

Line 4. If you are a member of a unitary group, enter the amount of credit you received from another member of the unitary group.

Line 5. Enter the ITC carryover from prior years. The amount is computed on Form 49C or on a separate schedule. Include a copy of Form 49C or the schedule. See General Instructions for the carryover period allowed.

Line 6. If you are an S corporation, partnership, trust, or estate, enter the amount of credit that passed through to shareholders, partners, or beneficiaries.

Line 7. If you are a member of a unitary group, enter the amount of credit you earned that you elect to share with other members of your unitary group. Before you can share your credit, you must use the credit up to the allowable limitation of your tax liability.

Corporations claiming ITC must provide a calculation of the credit earned and used by each member of the combined group. The schedule must clearly identify shared credit and the computation of any credit carryovers.

PART II - LIMITATION

The ITC is limited to 50% of your Idaho income tax after deducting:

- Credit for income taxes paid to other states
- Credit for contributions to Idaho educational entities

Line 1. Enter the amount of your Idaho income tax. This is the computed tax before adding the permanent building fund tax or any other taxes, or subtracting any credits.

Line 2. Enter the credit for income tax paid to other states from Form 39R or Form 39NR. This credit is available only to individuals, trusts, and estates.

Line 8. Enter the smallest amount from lines 5, 6, or 7. Carry this amount to Form 44, Part I, line 1, and enter it in the Credit Allowed column.

COMMUNITY DEVELOPMENT BLOCK GRANT

The Idaho Community Development Block Grant program (CDBG) assists Idaho cities and counties with the development of needed public infrastructure.

The program is administered by Idaho Commerce with funds received annually from the U.S. Department of Housing and Urban Development. ICDBG funds are used to construct projects that benefit low and moderate-income persons, help prevent or eliminate slum and blight conditions, or solve catastrophic health and safety threats in local areas.

Eligible Applicants

- Only incorporated cities with a population under 50,000, or counties, are eligible to apply for ICDBG funds.
- Special service providers, such as fire districts, senior citizen centers, and water or sewer districts must be sponsored by a city or county.
- Award amounts are limited to a maximum of \$500,000.

Eligible Activities

- PUBLIC FACILITIES CONSTRUCTION AND IMPROVEMENTS
 - Sewer and water systems, streets, fire stations, removal of architectural barriers, and other public infrastructure. Communities can extend infrastructure to public housing projects or assist homeowners with improvements. Applications are due annually in November.
- ECONOMIC DEVELOPMENT PROJECTS
 - Public facility construction and improvements that support companies who are expanding and creating new jobs or new companies that will be creating jobs. Applications are due quarterly: March, June, September and December.

Application Deadlines

- **Public Facilities and Downtown Revitalization grant applications:** Friday before Thanksgiving
- **Job Creation grant applications:** Third Monday of December, March, June and September

RURAL COMMUNITY INVESTMENT FUND

The mission of the Rural Community Investment Fund program is to provide funds to rural areas for building public infrastructure or facilities in support of economic expansion and job creation. Created by the Idaho State Legislature in 2001, this state-funded grant program is a component of the Rural Initiative.

Eligible Applicants

- Cities with a population of less than 25,000.
- Counties may apply for countywide projects that have a measurable rural benefit – the sole beneficiary of the project cannot be a large city.
- Indian Tribes may apply if the project site is located on reservation land and within a community of less than 25,000 or the project has a measurable rural benefit and the sole beneficiary of the project cannot be a large city.

The three eligible applicant categories may sub-grant Rural Community Invest Fund funds to an eligible and Idaho Commerce approved sub-recipient.

Eligible Activities

- **Eligible activities** include extension of streets, water and sewer lines, and/or utilities to a site for a new business or industrial park; acquisition or construction of buildings for lease by a company; and provision of telecommunications, power, gas, and rail upgrades necessary for business expansions. City halls and schools are not eligible.
- **Grant Size:** Grant limits are \$50,000 to \$500,000.
- **Local Match:** Local match is required, but there is no set amount.
- **Evaluation Criteria:** Applications will be evaluated on the impact to the areas. Other evaluation factors include the number and quality of jobs created by the project, long-term economic impact, community support, and project financing and readiness.

IDAHO GEM GRANT

Created by the Idaho State Legislature in 2001 under the auspices of the Rural Initiative, the Idaho Gem Grant Program (IGG) provides assistance to rural communities for the planning and implementation of economic development projects.

Eligible Applicants

- The program is open to any rural community with a population of 10,000 persons or less.
- Applications must be submitted by a city, county or tribal government.
- As of 2005, a community is no longer required to be a designated “Gem Community” to be eligible for an Idaho Gem Grant.

Eligible Activities

- Idaho Gem Grants are focused on job creation and retention and awards are limited to the hard implementation costs of economic development projects.
- Examples of eligible projects include water and sewer infrastructure for a new business, remediation of slum and blight conditions blocking business development, placemaking projects with a nexus to the attraction of workforce and tourism and matching funds for the creation of assets with a high certainty of aiding future economic development efforts.

NEW MARKET TAX CREDITS

The New Markets Tax Credit (NMTC) program provides capital for businesses, developers, and non-profits to help make their projects a reality. Funding provided through this program works with equity investments and debt financing to create the most flexible capital stack available today. This innovative financing also ensures that important projects receive the capital they need to get to the finish line. Today, New Markets Tax Credits have become one of the most competitive sources of financing available in the United States.

What does this mean in plain English? A qualifying project can receive 18–23% of the financing it needs in the form of a very low interest loan that, ultimately, can be forgiven and would not have to be repaid.

Criteria for NMTC projects:

- Project is in a qualifying census tract, OR (2) Project will mainly hire or serve low-income people.
- Project is over \$4 million in total project costs.
- No more than 80% of the Project's ongoing revenue will come from housing rental income.
- Project can demonstrate it needs NMTC financing assistance.
- Project will benefit the community.

OPPORTUNITY ZONES

Created by the Tax Cuts and Jobs Act of 2017, Opportunity Zones are a federal tax incentive designed to encourage the reinvestment of capital gains into economically distressed Census tracts nominated by the Governor and designated by the U.S. Department of Treasury. In order to access the incentive, investors must create a stand alone Opportunity Fund capitalized with capital gains from other investments. 90% or more of the Opportunity Fund must be invested into an operating business or a business property located in an Opportunity Zone. Upon sale, Opportunity Fund Investments held for 10 years or more, may exclude their capital gains from federal taxes.

More information regarding Opportunity Zones is available from the Internal Revenue Service <https://www.irs.gov/credits-deductions/businesses/opportunity-zones>

PRIVATE ACTIVITY BONDS

Private Activity Bonds (PABs) are tax-exempt fixed income instruments. Simply put, it is another way for a business or developer to finance certain types of projects or what the Internal Revenue Service (IRS) calls “Qualified Activities” (QAs). Often, but not in all cases, PABs may be used alongside other tax and business incentives. Some examples of QAs include manufacturing facilities (aka Small Issue or Industrial Revenue Bonds), broadband infrastructure, and carbon capture projects.

The bond issue is created and organized by a sponsoring government, with the proceeds used by the private business. The business is responsible for bond repayment. The sponsoring government holds title to the underlying collateral until the bonds are paid in full. This arrangement provides tax-exempt status to the bonds. The sponsoring government is not responsible for bond repayment and the bonds do not affect the government’s credit rating. A bond election is not required.

The benefits of Industrial Revenue Bonds (IRBs) include lower interest rates (due to the bonds tax-exempt status), more flexible terms vs a traditional bank loan, and for larger projects an avenue for diversifying risk.

Bond proceeds may be used for a variety of purposes, including land acquisition, building construction, machinery and equipment, real estate development fees, and the cost of bond issuance.

In the United States IRBs are governed by IRS statute and include the following provisions:

- The maximum amount of bonds that may be issued or outstanding is \$10 million.
- Total capital expenditures at the project site may not exceed \$20 million total.
- Total IRBs outstanding at the company in the U.S. may not exceed \$40 million total.
