

Financial Assistance Award (FAA) Guidelines and Application Instructions

A. Introduction

The U.S. Small Business Administration's (SBA) Office of International Trade (OIT) has awarded a State Trade Expansion Program (STEP) grant to the Idaho Department of Commerce (IDC). The STEP program provides competitive Financial Assistance Awards (FAAs) to Idaho small businesses for the purposes of international export marketing initiatives. These initiatives are aimed at achieving three primary goals:

- 1) increase the number of small businesses that export
- 2) increase the value of exports
- 3) increase the number of small businesses exploring significant new trade opportunities.

IDC and the Idaho State Department of Agriculture (ISDA) are pleased to announce a competitive solicitation process for FAAs. Eligible companies may apply for grants valued from **\$2,000 to \$9,000** and are required to provide **25%** cash match.

Project Period

All project activities must be completed and all funds must be expended on or before **September 29, 2023**. *Refer to Section D. Pre-Award costs for exceptions.*

Note: If an applicant has limited English proficiency and needs access to resources for assistance, the IDC/ISDA maintains service standards to help.

B. Eligible Activities

Financial Assistance Awards are a valuable trade tool available to qualifying companies seeking support in various international trade activities. The program was designed with flexibility to meet the specific international marketing needs of Idaho companies. Approved project areas include the following:

- Foreign market sales trip
- Governor's or foreign trade mission
- Trade show; International or Domestic*
 - *Domestic shows are allowable when the following requirements are met:
 - At application, company submits its international strategy for exhibiting at a specific domestic trade show. This can be a short statement or bulleted list that conveys the company's approach and actions to achieve export sales at a specific domestic trade show. It must include justification that reflects the reasonable judgement that this domestic trade show is appropriate for the company's export development. Reasonable judgement may be based upon one or multiple factors, to include: a significant foreign buyer presence based upon prior years' attendance data published by the trade show organizer, a known foreign buyer delegation attending a domestic trade show which is specifically relevant to the company's export developments, a domestic trade show which serves as the premier international exhibition for the company's industry.

- Post-event, company will submit a list of matchmaking activities completed, if any, and the international leads (such as export brokers, distributors, and foreign buyers) contacted during the domestic trade show. The reasonable, necessary, allowable, and allocable costs of matchmaking services are eligible for STEP funding. Submission will take place during the reimbursement process.
- Services provided by the U.S. Department of Commerce
 - International Partner Search (IPS), Gold Key Service (GKS), Etc.
 - <https://legacy.trade.gov/fees/>

Note: The SBA expects that companies will eventually graduate from the STEP program. Therefore, IDC/ISDA may choose not to fund the same project more than a total of three (3) times, consecutive years or otherwise, per company. For example:

- If STEP funds have been awarded for the company to attend Mobile World Congress in 2013, 2016 and 2017, a FAA may not be awarded to attend the show a 4th time.

C. Eligible Applicants

The Trade Facilitation and Trade Enforcement Act of 2015, which authorized the State Trade Expansion Program, limits provision of services to ‘eligible small business concerns’. For purposes of implementing the STEP Program, the SBA operationally defines the term ‘eligible small business concern’ as an entity that meets the specifications below and completes the subsequent certification.

- Is organized or incorporated in the United States;
- Is operating in the United States;
- Meets
 - The applicable industry-based small business size standard established under section 3 of the Small Business Act; or
 - The alternate size standard applicable to the program under section 7(a) of the Small Business Act and the loan programs under title V of the Small Business Investment Act of 1958 (15 U.S.C. 695 et seq.);
 - The U.S. Small Business Administration (SBA) size standards are found at 13 C.F.R. Part 121. Use the following sba.gov link for information on size standards for your business - (<https://www.sba.gov/federal-contracting/contracting-guide/size-standards>). Click [HERE](#) to link directly to the complete list of SBA size standards used to define small business concerns based on NAICS codes.
 - **Affiliates:** You must include the employees or receipts of all affiliates when determining the size of a business. Affiliation with another business is based on the power to control, whether exercised or not. The power to control exists when an external party has 50 percent or more ownership. It may also exist with considerably less than 50 percent ownership by contractual arrangement or when one or more parties own a large share compared to other parties. Check the [SBA’s compliance guide for size affiliation](#) for more detailed information.

- **Annual receipts:** This is the “total income” (or “gross income”) plus the “cost of goods sold.” These numbers can normally be found on the business’s IRS tax return forms. Receipts are averaged over a business’s latest three complete fiscal years or (except in the Business Loan and Disaster Loan Programs) five complete fiscal years to determine the average annual receipts. If a business hasn’t been in business for five years, multiply its average weekly revenue by 52 to determine its average annual receipts. The SBA calculates annual receipts in accordance with 13 CFR 121.104.
- **Employee calculation:** This is the average number of people employed for each pay period over the business’s latest 12 calendar months. Any person on the payroll must be included as one employee regardless of hours worked or temporary status. The number of employees of a concern in business less than 12 months is the average for each pay period that it has been in business. The SBA calculates number of employees in accordance with 13 CFR 121.106.
- Has been in business for not less than 1 year, as of the date on which assistance using a grant under this subsection commences; and
- Has access to sufficient resources to bear the costs associated with trade, including the costs of packing, shipping, freight forwarding, and customs brokers
- Is an export ready U.S. company seeking to export goods or services of U.S. origin or have at least 51% content, click [HERE](#) for information.
