

USCS Services Guidelines and Application Instructions

A. Introduction

The U.S. Small Business Administration's (SBA) Office of International Trade (OIT) has awarded a State Trade Expansion Program (STEP) grant to the Idaho Department of Commerce (IDC). The STEP program provides competitive Idaho Online Global Program Awards (OGPs) to Idaho small businesses for the purposes of international export marketing initiatives. These initiatives are aimed at achieving three primary goals:

- 1) increase the number of small businesses that export
- 2) increase the value of exports
- 3) increase the number of small businesses exploring significant new trade opportunities.

Awards can offset a portion of eligible expenses for services provided by the U.S. Commercial Service. They are a valuable trade tool available to qualifying companies seeking support with various services through the matching program. **25%** match required for services.

Project Period

All project activities must be completed and all funds must be expended on or before **September 29, 2023**.

Note: If an applicant has limited English proficiency and needs access to resources for assistance, the IDC/ISDA maintains service standards to help.

B. Eligible Activities

The program was designed with flexibility to meet the specific international marketing needs of Idaho companies. All Commercial Service offerings and fees can be found here: <https://legacy.trade.gov/fees/>

Approved project options include, but are not limited to the following:

- International Partner Search+ (IPS+)
 - Provides U.S. companies with a list of up to five partners/distributors that have expressed an interest in the client's goods/services. The service includes identification and outreach to potential matching firms, sending client's information to identified matching firms, preparing a profile of interested firms, and providing a report with the profile and contact information for interested firms.
- Rural America's Intelligence Service for Exporters (RAISE)
 - Provides rural U.S. companies with one-on-one market intelligence from a team who identifies customized industry-specific insights and contacts.

C. Eligible Applicants

The Trade Facilitation and Trade Enforcement Act of 2015, which authorized the State Trade Expansion Program, limits provision of services to 'eligible small business concerns'.

For purposes of implementing the STEP Program, the SBA operationally defines the term 'eligible small business concern' as an entity that meets the specifications below and completes the subsequent certification.

- Is organized or incorporated in the United States;
- Is operating in the United States;
- Meets
 - The applicable industry-based small business size standard established under section 3 of the Small Business Act; or
 - The alternate size standard applicable to the program under section 7(a) of the Small Business Act and the loan programs under title V of the Small Business Investment Act of 1958 (15 U.S.C. 695 et seq.);
 - The U.S. Small Business Administration (SBA) size standards are found at 13 C.F.R. Part 121. Use the following sba.gov link for information on size standards for your business (<https://www.sba.gov/size-standards>). Click [HERE](#) to link directly to the complete list of SBA size standards used to define small business concerns based on NAICS codes
 - **Affiliates:** You must include the employees or receipts of all affiliates when determining the size of a business. Affiliation with another business is based on the power to control, whether exercised or not. The power to control exists when an external party has 50 percent or more ownership. It may also exist with considerably less than 50 percent ownership by contractual arrangement or when one or more parties own a large share compared to other parties. Check the [SBA's compliance guide for size and affiliation](#) for more detailed information.
 - **Annual receipts:** This is the "total income" (or "gross income") plus the "cost of goods sold." These numbers can normally be found on the business's IRS tax return forms. Receipts are averaged over a business's latest three complete fiscal years or (except in the Business Loan and Disaster Loan Programs) five complete fiscal years to determine the average annual receipts. If a business hasn't been in business for five years, multiply its average weekly revenue by 52 to determine its average annual receipts. The SBA calculates annual receipts in accordance with 13 CFR 121.104.
 - **Employee calculation:** This is the average number of people employed for each pay period over the business's latest 12 calendar months. Any person on the payroll must be included as one employee regardless of hours worked or temporary status. The number of employees of a concern in business less than 12 months is the average for each pay period that it has been in business. The SBA calculates number of employees in accordance with 13 CFR 121.106.
- Has been in business for not less than 1 year, as of the date on which assistance using a grant under this subsection commences; and
- Has access to sufficient resources to bear the costs associated with trade, including the costs of packing, shipping, freight forwarding, and customs brokers
- Is an export ready U.S. company seeking to export goods or services of U.S. origin or have at least 51% content, click [HERE](#) for information.

Eligible small business must meet the following additional criteria to be considered for this program:
