### IMAGE QUALITY RECOMMENDATIONS

- When possible, make sure that your image is no more than three years in age.
- Be aware of fashion, gear, devices and technology trends seen in photographs. These will date an image quickly.
- Landmarks, structures and landscapes should reflect what will be seen currently.
- Be aware of potential obstructions/distractions to the focal point of the image (i.e. power lines, etc.).
- All photographs should be color-corrected to some degree and reflect realistic colors.
- Avoid images that are hazy and/or washed-out (appear flat, low-contrast)
- Avoid images that are unrealistically over-saturated/manipulated (dramatic HDR, social-media style filters).

## FONT & COLOR RECOMMENDATIONS

It is highly recommended to use fonts, font combinations and color palettes that reflect contemporary sensibilities for design, readability, legibility and accessibility.

- Be sure to use appropriate and legible font combinations, that establish distinct levels of importance and enhance readability.
- Be aware of the appropriate and legible case usage for fonts (i.e. upper-case, lower-case, all-caps, sentence case, title case).
- Be sure to use color combinations that offer enough contrast to enable easy readability.
- **DO NOT** use colors, font combinations and/or sizes that create an unnecessarily difficult reading experience.
- **DO NOT** use overly trendy or basic/primary color palettes.
- **DO NOT** use overly trendy, stylized or distressed fonts as they can appear dated and sometimes illegible.
- **DO NOT** arbitrarily stretch or distort fonts from their original specifications.

## COPY & TEXT RECOMMENDATIONS

- Please ensure that your ad includes a call to action. (Example: Start planning your getaway at [lavahotspings.org](http://lavahotspings.org)).
- Check that your phone numbers, websites, addresses, social media handles, etc. are accurate and up to date.
- Do not include “www” or “http://” at the beginning of a website address. Removing this makes the urls cleaner and more succinct.
- Check that all titles, descriptions, captions and sentences are complete and use correct spelling, punctuation, grammar and capitalization.
- Be aware of the differences between hyphens, en dashes and em dashes, and use them appropriately. Do not substitute en dashes for em dashes, hyphens for en dashes, etc.
  - » **Hyphen:** A hyphen indicates connection. (Ex: world-class).
  - » **En dash:** An en dash indicates a comparison or, more commonly elapsed time (Ex: 9a.m.–5p.m).
  - » **Em dash:** “An em dash can function as a comma, a colon or parenthesis. Like commas and parentheses, em dashes set off extra information, such as examples, explanatory or descriptive phrases, or supplemental facts.” ~ Merriam Webster (Ex: A visit to northern Idaho isn’t complete without spending time in Wallace—the self-proclaimed “Center of the Universe.”)
  - » For consistency, use closed spaces around em dashes.
- Double check that your copy does not contain extra spaces, duplicate letters, words or punctuation.
- Within reason, avoid using the same word twice in the same sentence/paragraph. (Example: Get ready to discover adventure! Discover hiking trails, spectacular waterfalls and more.)
- Please be mindful of how often you use exclamation marks.
- Please refer to the Visit Idaho Style Guide for more detailed information regarding spellings, grammar and punctuation.

## GRANT SUPPORTED ADS

Any ads using grant funds for reimbursement will also need to be grant compliant with the exception of grant logo use. **DO NOT** include the grant logo in ads for the Idaho Travel Guide. If client identifies the ad as one for grant funds reimbursement, Madden Media will submit the formatted ad to the Grants team for reimbursement approval.
