

Idaho Broadband, Equity, Access, and Deployment Program

Funding Application Question 72

Professional Engineer Sample Certification

[Copy language below onto letterhead used by the professional engineer that will be certifying. Upload signed certification on letterhead to the Idaho Grant Portal with applicant's other application materials.]

Certification

I, the undersigned professional engineer, have reviewed all necessary elements of [Applicant's Name] proposed project, including descriptions and documentation of the network route and design, network diagram, network performance, project timelines and milestones, and project costs and budgets.

I certify that the application materials I reviewed are complete and accurate to the best of my knowledge, the proposed project meets all applicable program requirements and is designed to be successfully completed and capable of meeting all performance commitments and requirements to all locations served by the project within the proposed timeline.

I have based my technical evaluation of this project on my expertise and many years of experience working on projects of similar size and scope.
